### **KZN DOT CONTINUES TO CHAMPION INFRASTRUCTURE GROWTH**

In line with government's priority to invest on infrastructure projects, KZN Department of Transport has taken a lead in improving provincial road infrastructure. The department is determined to improve lives of KZN people especially rural communities through massive infrastructure development.

MEC for Transport, Community Safety and Liaison Mr. Willies Mchunu, believes that it is through infrastructure development that the province can realize its goal of job creation.

Most infrastructure projects that have officially been launched by Mchunu have each created more than 200 job opportunities to local communities. Tomorrow the community of Kelso and kwaHlongwa will witness two complete infrastructure projects.

Mchunu accompanied by the leadership of Umzumbe Municipality, Ugu District Municipality and Traditional Authority will officially open two vehicle bridges built under uMzumbe Municipality.

The two vehicle bridges will change the lives of two communities as they will have better access to government facilities.
