Fabrication and lies about halting of all RDP Housing Projects rejected

Statement by the Department of Transport and Human Settlements

11 July 2024

Inkosi Mhlabunzima Maphumulo House: We wish to reject categorically, lies and fabrication peddled on X Platform alleging the MEC for Transport and Human Settlements, Siboniso Duma has halted all RDP Housing Projects.

Contrary to these baseless allegations, the MEC is intervening to unblock blockages especially around the provision of bulk infrastructure such as electricity, water and sanitation.

He was in Acaciaville last week to monitor the construction of more than 250 housing units with a budget of more than R21 million. Following his interventions, this project is due for completion in few months' time.

MEC Duma is also prioritizing the construction of roads to human settlements.

He is encouraged by the co-operation and integrated approach involving all spheres of government from national to municipalities.
