

KZN Artificial Intelligence Summit 2025 to shape the public transport system and ensure the construction of resilient houses to withstand disasters: Duma has announced that Road Traffic Inspectorate will use cutting edge technology to ensure detection of drunk driving and speeding this festive season

Media Invite and Public Statement by the MEC for Transport and Human Settlements, Siboniso Duma.

12 November 2025

Inkosi Mhlabunzima Maphumulo House: This Friday, 14 November 2025, we will attend the first-ever KwaZulu-Natal Artificial Intelligence Summit 2025 as part of engineering the evolution of the public transport system and human settlements in this province.

Esteemed academics, experts, policy formulators, researchers, captains of industry, the youth, and ordinary members of society will gather at the Inkosi Albert Luthuli International Convention Centre, Durban.

The summit will start at 08h00 – 14 November 2025 and will reflect on key aspects that will ensure that as KZN we leapfrog all stages of technological development.

We cherish the opportunity to join eThekweni Municipality, KwaZulu-Natal Artificial Intelligence Foundation guest speakers, and all delegates as part of shaping the future, ensuring that KZN becomes a land of endless opportunities.

In particular, we affirm our commitment to use the resolutions of the summit to achieve the following:

1. Improving road safety and ensuring public transport efficiency.
2. Acceleration of the construction of roads and bridges in all corners of the province.
3. Detecting speeding and drunk driving.
4. Ensuring drone-assisted search & rescue operations.
5. Traffic management to avoid traffic congestion.
6. Improving aviation efficiency and safety.
7. Building resilient houses that withstand disasters.
8. Acceleration of the construction of human settlements across all corners of the province.

As we approach the festive season, our highly efficient team from the Road Traffic Inspectorate will use the cutting edge technology as part of law enforcement.

Finally, we do not want anyone to be left behind and we are encouraging interested members of the public to urgently confirm their attendance by sending a WhatsApp to the following number 060 1055 505.
