

MEDIA INVITE: Infrastructure Revolution to make KZN prosperous: Duma has turned this province into a construction site. Now he wants young people to take over and lead the construction of roads and bridges over the next 40 years

Media Advisory and Public Statement by the MEC for Transport and Human Settlements, Siboniso Duma

20 October 2025

Inkosi Mhlabunzima Maphumulo House: Young people are the future.

Accordingly, as the department we want to prepare them to take charge of the construction of roads and bridges.

Having turned KZN into a construction site, we want to see their maximum participation and visibility in the repair and maintenance of more than 34 000 kilometres of road networks across the province.

We are relentless in our efforts to build KwaZulu-Natal to be a prosperous province.

But, without the energy, the skill and vibrancy of young people this will remain a pipedream.

It is for this reason we want young people to join the department and take charge of the infrastructure revolution.

Flowing from above, we invite young people and the media at large to be part of the Open Day and Exhibition Scheduled as follows:-

Date: 21 October 2025 (Tuesday)

Time: 10h00

Venue: KZN Department of Transport Regional Office | Merebank Workshop | Durban

Critically, our main goal is to drive mass job creation through the infrastructure revolution.

Ends

Issued by the MEC for Transport and Human Settlements, Siboniso Duma
