#NenzaniLaEzweni: RTI Dundee has arrested and removed from our road a reckless truck driver before causing a horrific accident.

The driver was intercepted in Glencoe clocking 130 km/h in a 80 km/h zone.

The MEC for Transport and Human Settlements, Siboniso Duma, announced this morning that a crack-down had begun on trucks using worn-out tyres, fraudulent permits and those that are overloading cargo.

11 trucks were impounded along the N3 in Pietermaritzburg in the early hours of the morning.
