

# Volkswagen of South Africa (Pty) Ltd

2 February 2007

Chief Director  
Office of the State Tender Board  
Private Bag X49  
240 Vermeulen Street  
PRETORIA  
0001

Dear Sir

## **STATE TENDER RT57 - 2007CV**

1. New vehicle prices, in Addendum A, have been submitted in accordance with the revised State Tender request and will be subject to the price adjustments on a quarterly basis. Price adjustments are based on the imported component value of each vehicle for the duration of the contract period 1 April 2007 to 31 March 2008 in Attachment E.
2. Delivery costs are contained in Attachment D.
3. All factory fitted options are shown in Attachment A and non-factory fitted options are in Attachment B.
4. Ambulance conversions, mobile clinics, people transporters ( buses) and hospital patients transporters are included in Attachment C.
5. Terms of payment are 30 days after the date of invoice. Interest at the ruling prime rate plus 2% will be charged on overdue accounts.
6. Citi 1.6i, Polo 1.4 Trendline, Polo 1.6 Trendline, Polo Classic 1.4 Trendline, Polo Classic 1.6 Trendline, Golf 1.6 Trendline and Jetta 1.6 Trendline are available as a government specification. This means that the costs for air conditioner and radio/cd are built into the price of the vehicle.
7. All models will offer a Service Plan of either 3 years / 120 000 km's or 4 years / 160 000 km's as an optional extra as per Addendum A. Service Plans are exclusive of any maintenance cover.
8. Micro DataDot is offered as an optional extra. Details are listed under non-factory fitted options in Attachment B.
9. VW Transporter, short and long wheel base derivative, can also be ordered with a Chassis Cab option under Attachment A.12.
10. Volkswagen of South Africa has signed the National Industrial Participation Programme Form SBD5 subject to the understanding that this requirement of the tender is still under review. It is Volkswagen of South Africa's understanding that the motor industry is in the process of engaging with the Government as to whether the programme should be a condition of the State Tender. Pending the outcome of further discussions, Volkswagen of South Africa will monitor its government sales in terms of the threshold obligations.

### **Please note:**

- (A) All prices are inclusive of VAT. The basic price of the vehicle includes PDI costs.
- (B) Gearlock is a standard feature on all the VW Chico and Pick-up models.
- (C) A handling fee of R 399.00 inclusive of VAT will be levied on all VW, Audi and Seat vehicles, which will include fuel worth R 100.00.

# WARRANTY: TERMS & CONDITIONS

## Explanation of the Terms of Warranty

Before leaving the factory, all vehicles and parts go through a series of stringent checks to ensure reliability and safety. Although these tests become more sophisticated each year, faults can sometimes occur, as with any mechanical product containing a large number of components.

In your own interest, it is essential that you have your Volkswagen serviced regularly by one of our Volkswagen Franchised Dealers. The recommended Standard Service intervals are indicated in your Service Schedule and it is important that these are adhered to and the book stamped by your Volkswagen Franchised Dealer at the time of the service.

**VOLKSWAGEN of South Africa (Pty) Ltd reserve the right to reject any claims if services are not carried out within 1 000 km of the specified period. Correct operation of your vehicle in accordance with the Instruction Manual and proof of all maintenance work through the Service Schedule is essential if you are to receive the benefits of the Warranty. This is important as you will lose the rights for consideration under warranty if your vehicle has not been maintained by a Volkswagen Franchised Dealer. Regular service and maintenance carried out by a Volkswagen Franchised Dealer will help to maintain the value of your vehicle.**

(i) During the Warranty period, any fault arising as a direct result of defective material or workmanship in manufacturing will be rectified free of all charges, (excluding lubricants – refer to item 5 on the previous page), at a Volkswagen Franchised Dealer only, providing the vehicle has been used in accordance with the Instruction Manual, and the Service Schedule shows that it has been correctly

**maintained.**

The Warranty in respect of a vehicle is automatically transferred if the ownership of the vehicle changes within the Warranty period, however on change of ownership the **Warranty Transfer form** on the centre page of the Service Schedule must be completed and forwarded to the **Warranty Administrators.**

The list of exceptions below, although not exhaustive, will help to avoid any misunderstandings.

- (i) Fair wear and tear on items such as brake and clutch linings, cambelts, drive belts, V-belts, wiper blades and spark plugs.
- (ii) Standard Services and oil changes, including oils, gaskets, filters and other miscellaneous material (oil and grease used after Service).
- (iii) Light bulbs and fuses – are service items.
- (iv) Wheel balancing, front and rear wheel alignment, the frequency of which largely depends on the driving techniques such as rapid starts and stops, tyre skidding, hitting potholes and kerbs, and normal wear and tear.
- (v) Mechanical adjustments to items such as carburetors, ignition, brakes, clutch and door locks.
- (vi) Windscreen and window glass breakage after the expiry of one month from the date of purchase of the vehicle or after it has been driven or used over a distance of 1 000 km whichever occurs first. Faults in material or manufacture would have become obvious by then so that broken glass occurring later must be regarded as being due to external influences for which the manufacturer cannot be held responsible.
- (vii) Other matters not covered by Warranty are charges incidental to breakdowns such as hotel charges, damage and loss

# WARRANTY: TERMS & CONDITIONS

of personal effects and clothing, loss of income, hire of alternative transport and incidental consequential losses. Likewise excluded are damage and maintenance due to rallying, racing or time trials.

- (viii) Tyres must be referred to the manufacturer concerned.
- (ix) The battery is guaranteed by the battery manufacturers for a period of 12 months as per the enclosed card with the exception of cracked batteries for a claim can be submitted against **VOLKSWAGEN of South Africa (Pty) Ltd** i.e. within the first 7 000 km maximum. Remote control batteries will also require periodic replacement.

The effects of industrial pollution, corrosion damage brought about by weather conditions and/or damage to paintwork and chrome in consequence of climatic, thermal, chemical or mechanical influences.

For replacement parts, units e.g. engine or items of equipment, which are installed free in a vehicle, which is still within the warranty period, the warranty expires when the warranty for the vehicle expires. **VOLKSWAGEN of South Africa (Pty) Ltd** accepts no liability for faults which occur after the vehicle warranty has expired.
