## TRANSFORMATION AND HUMAN RESOURCES

Professional support in the form of technical, financial, communication and information technology and personnel services constitute the backbone of an organisation's capacity to deliver public goods and services effectively. The Human Resources Directorate is the engine behind this repertoire of strengths.

The Human Resources Directorate achieves this by:

- creating and maintaining the Department's establishment records (clear database and accessible Human Resources Information System);
- evaluating jobs and advising Management;
- developing and implementing the Departmental Human Resources Plan according to the Department's staffing requirements and Employment Equity Act;
- developing, disseminating, implementing, monitoring and evaluating all Departmental Human Resources Management Policies;
- developing and implementing the Department's Employment Equity Plan and report on progress;
- developing and implementing the Department's Skills Development Plan, assist with career pathing and ensuring that the Department's workforce is well developed and competent in order to make a meaningful contribution towards the achievement of the Department's vision and mission;
- ensuring sound Labour Relations, a service delivery oriented culture and work ethic;
- developing, marketing and implementing an effective Performance Management System in the Department.
- managing all service benefits and ensuring well managed service terminations or exits.

As at 31st March 2002 the Department of Transport had 7329 approved positions in the establishment. Of these 4567 or $62,4 \%$ were filled resulting in a vacancy rate of $37,6 \%$ mostly in administration ( $41 \%$ vacancies) and roads (42\% vacancies).

Four programmes make up the establishments' works:

| Administration: | 593 established posts <br> 347 filled; |
| :--- | :--- |
| Roads: | 5651 established posts <br> 3190 filled; |
| Road Traffic: | 1056 established posts <br> 929 filled; |
| Public Transport: | 29 established posts <br> 26 filled. |

Tables 1 through 11 show the various staff and expenditure movements that have occurred in the financial year 2001/2002.

The total amount of approved funds for the 2001 / 2002 financial year was R1,113,716.

Five programmes summarised below are:

- Administration
- Roads
- Road Traffic
- Public Transport, and
- Auxiliary and Associated Services

## 2. EXPENDITURE

Since 1994 the KwaZulu-Natal Department of Transport has systematically reduced its number of establishment posts to ensure that a higher proportion of our budget is spent on actual services to the public. The proportion of the Transport budget spent on Personnel in the $2001 / 2002$ financial year was $26,45 \%$. Due to the restructuring process during 2002/2003 the proportion of the Transport budget spent on Personnel will rise to $27 \%$.

## 6. AFFIRMATIVE ACTION

The Department has established an Employment Equity Committee, which deals with all issues relating to Employment Equity. This Committee has developed an Employment Equity Implementation Programme as well as the draft Employment Equity Plan that will be ratified by the various bargaining structures this year.

The Employment Equity Plan will include measures to redress numeric under representivity. The Skills Development Plan will also be used to achieve our numeric targets.

## 11. SKILLS DEVELOPMENT

During 2001 the Department appointed a Skills Development Facilitator who is responsible for the development of the Skills Development Plan. The Plan was submitted to the Public Service Education Training Authority (PSETA) on 14 March 2001 and to Construction Education Training Authority (CETA) on 05 September 2001. As a result of restructuring in the Department the skills plan has been slow in effective implementation. In order to bring about the effective implementation of the Skills Plan, the Department will need to appoint and train trainers, assessors, moderators, module writers and quality controllers according to SAQA.

The Skills Development Levy has been paid to CETA. The amount of R189 930,10 was deposited in the CETA's bank account on $08 / 01 / 2002$. This levy payment is the administrative cost in order for the SETA's to be able to assist with the training of officials according to SAQA.

Due to the restructuring there is no Human Resources Development component within the Department and it is envisaged that the new structure will make provision for the developmental functions as well as Skills Development activities. However, the Human Resources Development Committee is being utilised for any Skills Development matters.

In addition the Department has 5 Standard Generating Bodies (SGBs),

- Mechanical,
- Engineering,
- Road Traffic Inspectorate,
- Motor Licensing Bureau, and
- Administration.
