

ONLINE MOTOR VEHICLE LICENCE RENEWALS

Good news for motor vehicle owners! The National Department of Transport together with the Road Traffic Management Corporation (RTMC) has launched a new service which will allow motorists across South Africa to renew and pay for their motor vehicle license discs through the NaTIS online platform.

This service will enable the Motoring Public to save time, by avoiding long queues, fines, and penalties for late renewal. This innovative service also aims to reduce cash handling at local Registering Authorities while keeping in line with the ever-growing e-commerce sector.

The online service will help in the fight against Covid-19 with more motorist using the online platform therefore reducing the number of persons at the Registering Authority.

Motorists will be required to register a profile and populate personal details such as name, surname, identity number and address particulars as per the flowchart below:

If you encounter any problems with the process, contact the RTMC on Telephone: 0861 400 800 or email: onlinesupport@rtmc.co.za
