G5.3 Subcontract bill of quantities

The items of work identified for execution by Targeted Enterprise subcontractors is shown in the bill of quantities at the end of Part G: Small Contractor Development. The quantities of work shown for each item of work, is the anticipated work to be subcontracted, and the Contractor is not required to tender rates and prices for these items of work.

The following is the new additional information to the tender: -

1 EXTENSION OF TIME DELAYS CAUSED BY RAINFALL

Add the following after the fourth paragraph of Clause A1.2.3.4:

"Extension of time resulting from abnormal rainfall shall be calculated according to the requirements of Method (ii) (Critical-path method)."

(a) Method (2) (Critical path method with consequential delays)

Add the following to the end of Method (2):

"The value of "n" working days expected delay caused by normal rainy weather for each respective calendar month of any year, is given in table PSA1.2.3.4/1 below:

Table PSA1.2.3.4/1
EXPECTED DELAY OF WORKING DAYS DUE TO NORMAL RAINY WEATHER

Month	Expected delay of "m" working days due to normal rainy weather	Month	Expected delay of "m" working days due to normal rainy weather
January*	4 (3)	July	1
February	4	August	1
March	4	September	2
April	3	October	3
May	2	November	4
June	1	December*	4 (2)

* The values in brackets are the expected delays to allow for the annual year-end shutdown period.

The contractor shall make provision in the approved programme of work, and all subsequent adjusted programmes of work, for an expected delay of "n" equal to 30 working days due to normal rainy weather during the contract period, including any approved extension of time, for which the contractor will not receive an extension of time. This provision shall be shown as a float in the programme, and distributed amongst the calendar months.

Delays on programmed and actually planned working days only, shall be taken into account for an extension of time. If a delay due to wet conditions is caused by, or exacerbated by, the lack of adequate temporary drainage measures, such a delay shall not be taken into account in the calculation of any extension of time. Any delay due to rainfall shall only be recognized and granted to the extent that the delay could not be mitigated by changing work sequences.

Each day, or part of a day so agreed by the engineer, will accrue as "m" working days delay due to normal rainy weather. The summary of accrued "m" working days delay shall be recorded at each site meeting.

A claim for an extension of time will only be considered if the approved accumulative "m" working days delayed due to normal rainy weather, exceeds the contract provision of "n" working days during the contract period up to the due completion date, including any approved extension of time.

Note:

(1) Any surplus of the contract provision of "n" working days not claimed as rain days during the original contract period, shall not affect the original due completion date.

(2) For any approved extension of time period, any surplus of the contract provision of "n" working days not claimed as rain days during the original contract period, shall then be carried forward as a provision for an expected delay on working days due to normal rainy weather during the approved extension of time period."

PSA1.2.3.5 Handing-over of the Site of the Works

Add the following paragraph to the end of Clause A1.2.3.5:

"The handing-over of the road reserve for this project shall be subject to the following restrictions:

KWAZULU-NATAL PROVINCE

TRANSPORT
REPUBLIC OF SOUTH AFRICA

- (a) Only that portion of the road reserve on the new alignment shall be handed over to the contractor. The contractor shall be responsible for the maintenance along this portion of the road until completion of the contract.
- (b) The contractor shall be required to accommodate public traffic as well as the employer's other contractors working on various projects in the area.
- (b) The Contractor shall be required to accommodate service owners and other contractors working on the services relocation and maintenance in the execution of their duties."

2 DEADLINE FOR THE SUBMISSION OF ALL TECHNICAL INQUIRES
