SECTION A

NOTICES TO RESPONDENTS REGARDING THE COMPLETION OF FORMS

PLEASE NOTE THAT THIS CALL FOR BIDS IS SUBJECT TO TREASURY REGULATIONS 16A ISSUED IN TERMS OF THE PUBLIC FINANCE MANAGEMENT ACT, 1999, THE KWAZULU-NATAL SUPPLY CHAIN MANAGEMENT POLICY FRAMEWORK AND THE GENERAL CONDITIONS OF CONTRACT.

1. Unless inconsistent with or expressly indicated otherwise by the context, the singular shall include the plural and vice versa and with words importing the masculine gender shall include the feminine and the neuter.
2. Under no circumstances whatsoever may the Bids forms be retyped or redrafted but can be completed online without changing any words. Photocopies of the original Bids documentation may be used, but an original signature must appear on such photocopies.
3. The Respondent is advised to check the number of pages and to satisfy himself that none are missing or duplicated.
4. Bids submitted must be complete in all respects.
5. Bids shall be lodged at the address indicated not later than the closing time specified for their receipt, and in accordance with the directives in the Bids documents.
6. Each Bids shall be addressed in accordance with the directives in the BIDS documents and shall be lodged in a separate sealed envelope, with the name and address of the Respondent, the Bid number and closing date indicated on the envelope. The envelope shall not contain documents relating to any Bids other than that shown on the envelope. If this provision is not complied with, such Bids may be rejected as being invalid.
7. All Bids received in sealed envelopes with the relevant Bids numbers on the envelopes are kept unopened in safe custody until the closing time of the Bids. Where, however, a Bids is received open, it shall be sealed. If it is received without a Bids number on the envelope, it shall be opened, the Bid number ascertained, the envelope sealed and the Bid number written on the envelope.
8. A specific box is provided for the receipt of Bids, and no Bids found in any other box or elsewhere subsequent to the closing date and time of Bids will be considered.
9. No Bids sent through the post will be considered if it is received after the closing date and time stipulated in the BIDS documentation, and proof of posting will not be accepted as proof of delivery.
10. No Bids submitted by telefax, telegraphic will be considered.
11. Bids documents must not be included in packages containing samples. Such Bids may be rejected as being invalid.
12. Any alteration made by the Respondent must be initialled. If not initialled the Respondent may be disqualified.
13. Use of correcting fluid is prohibited
14. Bids will be opened in public as soon as practicable after the closing time of Bids.
15. Where practical, prices will be made public at the time of opening Bids.

BIDDER'S DISCLOSURE

PURPOSE OF THE FORM

Any person (natural or juristic) may make an offer or offers in terms of this invitation to bid. In line with the principles of transparency, accountability, impartiality, and ethics as enshrined in the Constitution of the Republic of South Africa and further expressed in various pieces of legislation, it is required for the bidder to make this declaration in respect of the details required hereunder.

Where a person/s are listed in the Register for Tender Defaulters and / or the List of Restricted Suppliers, that person will automatically be disqualified from the bid process.

Bidder's declaration

2.1 Is the bidder, or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest¹ in the enterprise, employed by the state?

YES	
NO	

2.1.1 If so, furnish particulars of the names, individual identity numbers, and, if applicable, state employee numbers of sole proprietor/ directors / trustees / shareholders / members/ partners or any person having a controlling interest in the enterprise, in table below.

Full Name	Identity Number	Name of State institution

2.2 Do you, or any person connected with the bidder, have a relationship with any person who is employed by the procuring institution?

¹ the power, by one person or a group of persons holding the majority of the equity of an enterprise, alternatively, the person/s having the deciding vote or power to influence or to direct the course and decisions of the enterprise.

YES	
NO	

2.2.1 If so, furnish particulars:

.....

2.3 Does the bidder or any of its directors / trustees / shareholders / members / partners or any person having a controlling interest in the enterprise have any interest in any other related enterprise whether or not they are bidding for this contract?

YES	
NO	

2.3.1 If so, furnish particulars:

.....

3 DECLARATION

I, _____ the _____ undersigned, (name)..... in submitting the accompanying bid, do hereby make the following statements that I certify to be true and complete in every respect:

- 3.1 I have read and I understand the contents of this disclosure;
- 3.2 I understand that the accompanying bid will be disqualified if this disclosure is found not to be true and complete in every respect;
- 3.3 The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint venture or consortium² will not be construed as collusive bidding.
- 3.4 In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications, prices, including methods, factors or formulas used to calculate prices, market allocation, the intention or decision to submit or not to submit the bid, bidding with the intention not to win the bid and conditions or delivery particulars of the products or services to which this bid invitation relates.
- 3.4 The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
- 3.5 There have been no consultations, communications, agreements or arrangements made by the bidder with any official of the procuring institution in relation to this procurement process prior to and during the bidding process except to provide clarification on the bid submitted where so required by the institution; and the bidder was not involved in the drafting of the specifications or terms of reference

² Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

for this bid.

3.6 I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

I CERTIFY THAT THE INFORMATION FURNISHED IN PARAGRAPHS 1, 2 and 3 ABOVE IS CORRECT.

I ACCEPT THAT THE STATE MAY REJECT THE BID OR ACT AGAINST ME

IN TERMS OF PARAGRAPH 6 OF PFMA SCM INSTRUCTION 03 OF 2021/22

ON PREVENTING AND COMBATING ABUSE IN THE SUPPLY CHAIN

MANAGEMENT SYSTEM SHOULD THIS DECLARATION PROVE TO BE

FALSE.

Every question must be answered individually on this form, whether a relationship is present or not: Failure to do so will invalidate your tender/bid

SECTION H

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

1. GENERAL CONDITIONS

1.1 The following preference point systems are applicable to invitations to tender:
 - the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 To be completed by the organ of state

- a) The applicable preference point system for this tender is the 90/10 preference point system.
- b) Either the 90/10 preference point system will be applicable in this tender. The lowest/ highest acceptable tender will be used to determine the accurate system once tenders are received.

1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:

- (a) Price; and
- (b) Specific Goals.

1.4 To be completed by the organ of state:

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	90
SPECIFIC GOALS	10
Total points for Price and SPECIFIC GOALS	100

1.5 A SANAS accredited certificate of BBBEE must be attached as proof.

1.6 Failure on the part of a tenderer to submit proof or documentation required in terms

of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

- 1.7 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

- (a) “**tender**” means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) “**price**” means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) “**rand value**” means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) “**tender for income-generating contracts**” means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) “**the Act**” means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 90 points is allocated for price on the following basis:

90/10

$$Ps = 90 \left(1 - \frac{Pt - Pmin}{Pmin} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmin = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND

INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 90 points is allocated for price on the following basis:

90/10

$$Ps = 90 \left(1 + \frac{Pt - Pmax}{Pmax} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmax = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:

4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—

(a) an invitation for tender for income-generating contracts, that the 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or

(b) any other invitation for tender, that the 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,

then the organ of state must indicate the points allocated for specific goals for both the 90/10 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

(Note to organs of state: Where the 90/10 preference point system is applicable,

corresponding points must also be indicated as such.

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

The specific goals allocated points in terms of this tender	Number of points allocated (90/10 system) (To be completed by the organ of state)	Number of points claimed (90/10 system) (To be completed by the tenderer)
Black People owned entity (100%)	10	
TOTAL	10	

DECLARATION WITH REGARD TO COMPANY/FIRM

4.3. Name _____ of company/firm.....

4.4. Company _____ registration _____ number: _____

4.5. TYPE OF COMPANY/ FIRM

- Partnership/Joint Venture / Consortium
- One-person business/sole propriety
- Close corporation
- Public Company
- Personal Liability Company

- State Owned Company

[TICK APPLICABLE BOX]

4.6. I, the undersigned, who is duly authorised to do so on behalf of the company/firm, certify that the points claimed, based on the specific goals as advised in the tender, qualifies the company/ firm for the preference(s) shown and I acknowledge that:

- i) The information furnished is true and correct;
- ii) The preference points claimed are in accordance with the General Conditions as indicated in paragraph 1 of this form;
- iii) In the event of a contract being awarded as a result of points claimed as shown in paragraphs 1.4 and 4.2, the contractor may be required to furnish documentary proof to the satisfaction of the organ of state that the claims are correct;

iv) If the specific goals have been claimed or obtained on a fraudulent basis or any of the conditions of contract have not been fulfilled, the organ of state may, in addition to any other remedy it may have –

- (a) disqualify the person from the tendering process;
- (b) recover costs, losses or damages it has incurred or suffered as a result of that person's conduct;
- (c) cancel the contract and claim any damages which it has suffered as a result of having to make less favourable arrangements due to such cancellation;
- (d) recommend that the tenderer or contractor, its shareholders and directors, or only the shareholders and directors who acted on a fraudulent basis, be restricted from obtaining business from any organ of state for a period not exceeding 10 years, after the *audi alteram partem* (hear the other side) rule has been applied; and
- (e) forward the matter for criminal prosecution, if deemed necessary.

SECTION I

CONTRACT FORM - PURCHASE OF GOODS/WORKS

THIS FORM MUST BE FILLED IN DUPLICATE BY BOTH THE SUCCESSFUL BIDDER (PART 1) AND THE PURCHASER (PART 2). BOTH FORMS MUST BE SIGNED IN THE ORIGINAL SO THAT THE SUCCESSFUL BIDDER AND THE PURCHASER WOULD BE IN POSSESSION OF ORIGINALLY SIGNED CONTRACTS FOR THEIR RESPECTIVE RECORDS.

PART 1 (TO BE FILLED IN BY THE BIDDER)

1. I hereby undertake to supply all or any of the goods and/or works described in the attached bidding documents to (name of institution)..... in accordance with the requirements and specifications stipulated in bid number..... at the price/s quoted. My offer/s remain binding upon me and open for acceptance by the purchaser during the validity period indicated and calculated from the closing time of bid.

2. The following documents shall be deemed to form and be read and construed as part of this agreement:
 - (i) Bidding documents, viz
 - Invitation to bid;
 - Tax clearance certificate;
 - Pricing schedule(s);
 - Technical Specification(s);
 - Preference claims for Broad Based Black Economic Empowerment Status Level of Contribution in terms of the Preferential Procurement Regulations 2022;
 - Declaration of interest;
 - Declaration of bidder's past SCM practices;
 - Certificate of Independent Bid Determination
 - Special Conditions of Contract;
 - (ii) General Conditions of Contract; and
 - (iii) Other (specify)

3. I confirm that I have satisfied myself as to the correctness and validity of my bid; that the price(s) and rate(s) quoted cover all the goods and/or works specified in the bidding documents; that the price(s) and rate(s) cover all my obligations and I accept that any mistakes regarding price(s) and rate(s) and calculations will be at my own risk.

4. I accept full responsibility for the proper execution and fulfilment of all obligations and conditions devolving on me under this agreement as the principal liable for the due fulfillment of this contract.

5. I declare that I have no participation in any collusive practices with any bidder or any other person regarding this or any other bid.

6. I confirm that I am duly authorised to sign this contract.

DATE

SECTION J

GENERAL CONDITIONS OF CONTRACT

1. Definitions

The following terms shall be interpreted as indicated:

- 1.1 "Closing time" means the date and hour specified in the bidding documents for the receipt of bids.
- 1.2 "Contract" means the written agreement entered into between the purchaser and the supplier, as recorded in the contract form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
- 1.3 "Contract price" means the price payable to the supplier under the contract for the full and proper performance of his contractual obligations.
- 1.4 "Corrupt practice" means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution.
- 1.5 "Countervailing duties" are imposed in cases where an enterprise abroad is subsidized by its government and encouraged to market its products internationally.
- 1.6 "Country of origin" means the place where the goods were mined, grown or produced or from which the services are supplied. Goods are produced when, through manufacturing, processing or substantial and major assembly of components, a commercially recognized new product results that is substantially different in basic characteristics or in purpose or utility from its components.
- 1.7 "Day" means calendar day.
- 1.8 "Delivery" means delivery in compliance of the conditions of the contract or order.
- 1.9 "Delivery ex stock" means immediate delivery directly from stock actually on hand.
- 1.10 "Delivery into consignees store or to his site" means delivered and unloaded in the specified store or depot or on the specified site in compliance with the conditions of the contract or order, the supplier bearing all risks and charges involved until the supplies are so delivered and a valid receipt is obtained.
- 1.11 "Dumping" occurs when a private enterprise abroad market its goods on own initiative in the RSA at lower prices than that of the country of origin and which have the potential to harm the local industries in the RSA.
- 1.12 "Force majeure" means an event beyond the control of the supplier and not involving the supplier's fault or negligence and not foreseeable. Such events may include, but is not restricted to, acts of the purchaser in its sovereign capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.
- 1.13 "Fraudulent practice" means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of any bidder, and includes collusive practice among bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the bidder of the benefits of free and open competition.
- 1.14 "GCC" means the General Conditions of Contract.
- 1.15 "Goods" means all of the equipment, machinery, and/or other materials that the supplier is required to supply to the purchaser under the contract.
- 1.16 "Imported content" means that portion of the bidding price represented by the cost of components, parts or materials which have been or are still to be imported (whether by the supplier or his subcontractors) and which costs are inclusive of the costs abroad, plus freight and other direct importation costs such as landing costs, dock dues, import duty, sales duty or other similar tax or duty at the South African place of entry as well as transportation and handling charges to the factory in the Republic where the supplies covered by the bid will be manufactured.
- 1.17 "Local content" means that portion of the bidding price which is not included in the imported content provided that

local manufacture does take place.

- 1.18 "Manufacture" means the production of products in a factory using labour, materials, components and machinery and includes other related value-adding activities.
- 1.19 "Order" means an official written order issued for the supply of goods or works or the rendering of a service.
- 1.20 "Project site," where applicable, means the place indicated in bidding documents.
- 1.21 "Purchaser" means the organization purchasing the goods.
- 1.22 "Republic" means the Republic of South Africa.
- 1.23 "SCC" means the Special Conditions of Contract.
- 1.24 "Services" means those functional services ancillary to the supply of the goods, such as transportation and any other incidental services, such as installation, commissioning, provision of technical assistance, training, catering, gardening, security, maintenance and other such obligations of the supplier covered under the contract.
- 1.25 "Written" or "in writing" means handwritten in ink or any form of electronic or mechanical writing.

2. Application

- 2.1 These general conditions are applicable to all bids, contracts and orders including bids for functional and professional services, sales, hiring, letting and the granting or acquiring of rights, but excluding immovable property, unless otherwise indicated in the bidding documents.
- 2.2 Where applicable, special conditions of contract are also laid down to cover specific supplies, services or works.
- 2.3 Where such special conditions of contract are in conflict with these general conditions, the special conditions shall apply.

3. General

- 3.1 Unless otherwise indicated in the bidding documents, the purchaser shall not be liable for any expense incurred in the preparation and submission of a bid. Where applicable a non-refundable fee for documents may be charged.
- 3.2 With certain exceptions, invitations to bid are only published in the Government Tender Bulletin. The Government Tender Bulletin may be obtained directly from the Government Printer, Private Bag X85, Pretoria 0001, or accessed electronically from www.treasury.gov.za

4. Standards

- 1.1. The goods supplied shall conform to the standards mentioned in the bidding documents and specifications.

5. Use of contract documents and information; inspection.

- a. The supplier shall not, without the purchaser's prior written consent, disclose the contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of the purchaser in connection therewith, to any person other than a person employed by the supplier in the performance of the contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purposes of such performance.
- b. The supplier shall not, without the purchaser's prior written consent, make use of any document or information mentioned in GCC clause 5.1 except for purposes of performing the contract.
- c. Any document, other than the contract itself mentioned in GCC clause 5.1 shall remain the property of the purchaser and shall be returned (all copies) to the purchaser on completion of the supplier's performance under the contract if so required by the purchaser.

- d. The supplier shall permit the purchaser to inspect the supplier's records relating to the performance of the supplier and to have them audited by auditors appointed by the purchaser, if so required by the purchaser.

6. Patent rights

- 6.1 The supplier shall indemnify the purchaser against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the goods or any part thereof by the purchaser.

7. Performance security

- 7.1 Within thirty (30) days of receipt of the notification of contract award, the successful bidder shall furnish to the purchaser the performance security of the amount specified in SCC.
- 7.2 The proceeds of the performance security shall be payable to the purchaser as compensation for any loss resulting from the supplier's failure to complete his obligations under the contract.
- 7.3 The performance security shall be denominated in the currency of the contract or in a freely convertible currency acceptable to the purchaser and shall be in one of the following forms:
 - 7.4 a bank guarantee or an irrevocable letter of credit issued by a reputable bank located in the purchaser's country or abroad, acceptable to the purchaser, in the form provided in the bidding documents or another form acceptable to the purchaser; or
 - 7.5 a cashier's or certified cheque
- 7.6 The performance security will be discharged by the purchaser and returned to the supplier not later than thirty (30) days following the date of completion of the supplier's performance obligations under the contract, including any warranty obligations, unless otherwise specified in SCC.

8 Inspections, tests and analyses

- 8.1 All pre-bidding testing will be for the account of the bidder.
- 8.2 If it is a bid condition that supplies to be produced or services to be rendered should at any stage during production or execution or on completion be subject to inspection, the premises of the bidder or contractor shall be open, at all reasonable hours, for inspection by a representative of the Department or an organization acting on behalf of the Department.
- 8.3 If there are no inspection requirements indicated in the bidding documents and no mention is made in the contract, but during the contract period it is decided that inspections shall be carried out, the purchaser shall itself make the necessary arrangements, including payment arrangements with the testing authority concerned.
- 8.4 If the inspections, tests and analyses referred to in clauses 8.2 and 8.3 show the supplies to be in accordance with the contract requirements, the cost of the inspections, tests and analyses shall be defrayed by the purchaser.
- 8.5 Where the supplies or services referred to in clauses 8.2 and 8.3 do not comply with the contract requirements, irrespective of whether such supplies or services are accepted or not, the cost in connection with these inspections, tests or analyses shall be defrayed by the supplier.
- 8.6 Supplies and services which are referred to in clauses 8.2 and 8.3 and which do not comply with the contract requirements may be rejected.
- 8.7 Any contract supplies may on or after delivery be inspected, tested or analyzed and may be rejected if found not to comply with the requirements of the contract. Such rejected supplies shall be held at the cost and risk of the supplier who shall, when called upon, remove them immediately at his own cost and forthwith substitute them with supplies which do comply with the requirements of the contract. Failing such removal the rejected supplies shall be returned at the suppliers cost and risk. Should the supplier fail to provide the substitute supplies forthwith, the purchaser may, without giving the supplier further opportunity to substitute the rejected supplies, purchase such supplies as may be necessary at the expense of the supplier.

8.8 The provisions of clauses 8.4 to 8.7 shall not prejudice the right of the purchaser to cancel the contract on account of a breach of the conditions thereof, or to act in terms of Clause 23 of GCC.

9. Packing

9.1 The supplier shall provide such packing of the goods as is required to prevent their damage or deterioration during transit to their final destination, as indicated in the contract. The packing shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit, and open storage. Packing, case size and weights shall take into consideration, where appropriate, the remoteness of the goods' final destination and the absence of heavy handling facilities at all points in transit.

9.2 The packing, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the contract, including additional requirements, if any, specified in SCC, and in any subsequent instructions ordered by the purchaser.

10 Delivery and documents

10.1 Delivery of the goods shall be made by the supplier in accordance with the terms specified in the contract. The details of shipping and/or other documents to be furnished by the supplier are specified in SCC.

10.2 Documents to be submitted by the supplier are specified in SCC.

11 Insurance

11.1 The goods supplied under the contract shall be fully insured in a freely convertible currency against loss or damage incidental to manufacture or acquisition, transportation, storage and delivery in the manner specified in the SCC.

11.2 Upon appointment by the Head of Department the service provider will be required to have a Professional Indemnity insurance of a minimum cover of R160 million.

12 Transportation

12.1 Should a price other than an all-inclusive delivered price be required, this shall be specified in the SCC.

13 Incidental Services

13.1 The supplier may be required to provide any or all of the following services, including additional services, if any, specified in SCC:

- (a) performance or supervision of on-site assembly and/or commissioning of the supplied goods;
- (b) furnishing of tools required for assembly and/or maintenance of the supplied goods;
- (c) furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied goods;
- (d) performance or supervision or maintenance and/or repair of the supplied goods, for a period of time agreed by the parties, provided that this service shall not relieve the supplier of any warranty obligations under this contract; and
- (e) training of the purchaser's personnel, at the supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied goods.

13.2 Prices charged by the supplier for incidental services, if not included in the contract price for the goods, shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged to other parties by the supplier for similar services.

14 Spare parts

14.1 As specified in SCC, the supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the supplier:

- (a) such spare parts as the purchaser may elect to purchase from the supplier, provided that this election shall not relieve the supplier of any warranty obligations under the contract; and
- (b) in the event of termination of production of the spare parts:

- (i) Advance notification to the purchaser of the pending termination, in sufficient time to permit the purchaser to procure needed requirements; and
- (ii) following such termination, furnishing at no cost to the purchaser, the blueprints, drawings, and specifications of the spare parts, if requested.

15 Warranty

- 15.1 The supplier warrants that the goods supplied under the contract are new, unused, of the most recent or current models, and that they incorporate all recent improvements in design and materials unless provided otherwise in the contract. The supplier further warrants that all goods supplied under this contract shall have no defect, arising from design, materials, or workmanship (except when the design and/or material is required by the purchaser's specifications) or from any act or omission of the supplier, that may develop under normal use of the supplied goods in the conditions prevailing in the country of final destination.
- 15.2 This warranty shall remain valid for twelve (12) months after the goods, or any portion thereof as the case may be, have been delivered to and accepted at the final destination indicated in the contract, or for eighteen (18) months after the date of shipment from the port or place of loading in the source country, whichever period concludes earlier, unless specified otherwise in SCC.
- 15.3 The purchaser shall promptly notify the supplier in writing of any claims arising under this warranty.
- 15.4 Upon receipt of such notice, the supplier shall, within the period specified in SCC and with all reasonable speed, repair or replace the defective goods or parts thereof, without costs to the purchaser.
- 15.5 If the supplier, having been notified, fails to remedy the defect(s) within the period specified in SCC, the purchaser may proceed to take such remedial action as may be necessary, at the supplier's risk and expense and without prejudice to any other rights which the purchaser may have against the supplier under the contract.

16 Payment

- 16.1 The method and conditions of payment to be made to the supplier under this contract shall be specified in SCC.
- 16.2 The supplier shall furnish the purchaser with an invoice accompanied by a copy of the delivery note and upon fulfillment of other obligations stipulated in the contract.
- 16.3 Payments shall be made promptly by the purchaser, but in no case later than thirty (30) days after submission of an invoice or claim by the supplier.
- 16.4 Payment will be made in Rand unless otherwise stipulated in SCC.

17 Prices

- 17.1 Prices charged by the supplier for goods delivered and services performed under the contract shall not vary from the prices quoted by the supplier in his bid, with the exception of any price adjustments authorized in SCC or in the purchaser's request for bid validity extension, as the case may be.

18 Contract amendments

- 18.1 No variation in or modification of the terms of the contract shall be made except by written amendment signed by the parties concerned.

19 Assignment

- 19.1 The supplier shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent.

20 Subcontracts

20.1 The supplier shall notify the purchaser in writing of all subcontracts awarded under this contracts if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.

21 Delays in the supplier's performance

21.1 Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.

21.2 If at any time during performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.

21.3 No provision in a contract shall be deemed to prohibit the obtaining of supplies or services from a national department, provincial department, or a local authority.

21.4 The right is reserved to procure outside of the contract small quantities or to have minor essential services executed if an emergency arises, the supplier's point of supply is not situated at or near the place where the supplies are required, or the supplier's services are not readily available.

21.5 Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 21.2 without the application of penalties.

21.6 Upon any delay beyond the delivery period in the case of a supplies contract, the purchaser shall, without cancelling the contract, be entitled to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and without prejudice to his other rights, be entitled to claim damages from the supplier.

22 Penalties

22.1 Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services using the current prime interest rate calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23 Termination for default

23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

- (a) if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;
- (b) if the Supplier fails to perform any other obligation(s) under the contract; or
- (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

23.3 Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.

- 23.4 If a purchaser intends imposing a restriction on a supplier or any person associated with the supplier, the supplier will be allowed a time period of not more than fourteen (14) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated fourteen (14) days the purchaser may regard the intended penalty as not objected against and may impose it on the supplier.
- 23.5 Any restriction imposed on any person by the Accounting Officer / Authority will, at the discretion of the Accounting Officer / Authority, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person, is or was in the opinion of the Accounting Officer / Authority actively associated.
- 23.6 If a restriction is imposed, the purchaser must, within five (5) working days of such imposition, furnish the National Treasury, with the following information:
- (i) the name and address of the supplier and / or person restricted by the purchaser;
 - (ii) the date of commencement of the restriction
 - (iii) the period of restriction; and
 - (iv) the reasons for the restriction.
- 23.6.1 These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.
- 23.7 If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, No. 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website.

24 Anti-dumping and countervailing duties and rights

- 24.1 When, after the date of bid, provisional payments are required, or antidumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidized import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall on demand be paid forthwith by the contractor to the State or the State may deduct such amounts from moneys (if any) which may otherwise be due to the contractor in regard to supplies or services which he delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which may be due to him.

25 Force Majeure

- 25.1 Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if and to the extent that his delay in performance or other failure to perform his obligations under the contract is the result of an event of force majeure.
- 25.2 If a force majeure situation arises, the supplier shall promptly notify the purchaser in writing of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

26 Termination for insolvency

- 26.1 The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the purchaser.

27 Settlement of Disputes

27.1 If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve amicably such dispute or difference by mutual consultation.

27.2 If, after thirty (30) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.

27.3 Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.

27.4 Mediation proceedings shall be conducted in accordance with the rules of procedure specified in the SCC.

27.5 Notwithstanding any reference to mediation and/or court proceedings herein,

- (a) the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and
- (b) the purchaser shall pay the supplier any monies due the supplier.

28 Limitation of liability

28.1 Except in cases of criminal negligence or willful misconduct, and in the case of infringement pursuant to Clause 6;

- (a) the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and
- (b) the aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.

29 Governing language

29.1 The contract shall be written in English. All correspondence and other documents pertaining to the contract that is exchanged by the parties shall also be written in English.

30 Applicable law

30.1 The contract shall be interpreted in accordance with South African laws, unless otherwise specified in SCC.

31 Notices

31.1 Every written acceptance of a bid shall be posted to the supplier concerned by registered or certified mail and any other notice to him shall be posted by ordinary mail to the address furnished in his bid or to the address notified later by him in writing and such posting shall be deemed to be proper service of such notice

31.2 The time mentioned in the contract documents for performing any act after such aforesaid notice has been given, shall be reckoned from the date of posting of such notice.

32 Taxes and duties

32.1 A foreign supplier shall be entirely responsible for all taxes, stamp duties, license fees, and other such levies imposed outside the purchaser's country.

32.2 A local supplier shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted goods to the purchaser.

32.3 No contract shall be concluded with any bidder whose tax matters are not in order. Prior to the award of a bid the Department must be in possession of a tax clearance certificate, submitted by the bidder. This certificate must be an original issued by the South African Revenue Services.

33 National Industrial Participation (NIP) Programme

33.1 The NIP Programme administered by the Department of Trade and Industry shall be applicable to all contracts that are subject to the NIP obligation.

34. Prohibition of Restrictive practices

34.1 In terms of section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, an agreement between, or concerted practice by, firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if a bidder (s) is / are or a contractor(s) was / were involved in collusive bidding (or bid rigging).

34.2 If a bidder(s) or contractor(s), based on reasonable grounds or evidence obtained by the purchaser, has / have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in the Competition Act No. 89 of 1998.

SECTION K

SPECIAL CONDITIONS OF CONTRACT

This bid is subject to the Preferential Procurement Policy Framework Act and the Preferential Procurement Regulations, 2022; the General Conditions of Contract (GCC) and the following applicable other Special Conditions of Contract.

The offers must remain valid for a period of 120 days from the closing date of the submission of bids.

1. CONTRACT PERIOD

1.1 5 years

2. EVALUATION CRITERIA

There are *four (4)* main stages in the selection process, namely, ensuring that bids comply with Administrative Compliance, the price and preference points, Mandatory Requirements and functionality

2.1 Step 1 - Administrative Compliance

Check and verify compliance with the submission and completion of compulsory bid documents viz Annexure A, Sections A to L. Failure to comply with any of the sections contained in the bid document that constitute step one will render the bid invalid

The following documentation must be submitted:

Criteria	Yes	No	Remarks
PART A	INVITATION TO BID (SBD 1)		
PART B	TERMS AND CONDITIONS FOR BIDDING (SBD 1)		
SECTION A	SPECIAL INSTRUCTIONS REGARDING COMPLETION OF BID		
SECTION B	MEMBERS RESOLUTION		
SECTION C	REGISTRATION ON CENTRAL SUPPLIERS DATABASE		
SECTION D	DECLARATION THAT INFORMATION ON CENTRAL SUPPLIER DATABASE IS CORRECT AND UP TO DATE		
SECTION E	OFFICIAL NRIEFING CERTIFICATE		
SECTION F	PRICING SCHEDULE		
SECTION G	BIDDER'S DISCLOSURE		
SECTION H	PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022 (SBD6.1)		
SECTION I	CONTRACT FORM		
SECTION J	GENERAL CONDITIONS OF CONTRACT		
SECTION K	SPECIAL CONDITIONS OF CONTRACT		
SECTION L	TERMS OF REFERENCE		

2.2 Preferential Point Evaluation

2.2.1 This bid will be evaluated using the 80/20/ 90/10 preference point system.

2.2.2 Bidders must comply with SBD 6.1 Declaration form to claim preference points.

2.3 TECHNICAL MANDATORY REQUIREMENTS

NB: KZN DOT reserves the right to verify all information provided.

MANDATORY REQUIREMENTS	SUBSTANTIATING EVIDENCE OF COMPLIANCE (used to evaluate bid)	BIDDER DECLARATION	
		COMPLY	NOT COMPLY
<p>(2) BIDDER CERTIFICATION / AFFILIATION REQUIREMENTS</p> <p>Bidder must provide a Certificate of compliance with Information Security Management</p>	<p>(c) Bidder must provide a Certificate of compliance with Information Security Management - ISO 27001.</p> <p>NB: KZN DOT reserves the right to verify if the certificate is valid at time of bid.</p>		

2.4 INSTRUCTION AND EVALUATION CRITERIA

- (1) The bidder **must complete in full all of the TECHNICAL FUNCTIONALITY requirements.**
- (2) The bidder **must provide a unique reference number** (e.g. binder/folio, chapter, section, page) to locate substantiating evidence in the bid response. During evaluation, KZN DOT reserves the right to treat substantiation evidence that cannot be located in the bid response as “NOT COMPLY”.
- (3) Functionality will be evaluated by conducting the following two (2) stages in the tender processes:
 - a) Desk Top Evaluation
 - b) System Demonstration
- (4) **Weighting of requirements:** The score for functionality will be calculated as follows:
Each Bidder will be evaluated on each individual criterion as indicated in the tables in sections no.(8) 2.4.1 and 2.4.2 below.

The value scored for each criterion will be multiplied with the specified weighting for the relevant criterion to obtain the marks scored for each criterion. These marks will be added and expressed as a fraction of the best possible score for all criteria

- (5) **Minimum threshold.** This score will be converted to a percentage and **only** bidders that have met or exceeded the minimum threshold of **80%** for functionality for Desk Top Evaluation will be considered to proceed to the System Demonstration Stage.
Only Bidders that have met or exceeded the minimum threshold of 80% for functionality for System Demonstration Stage will then be considered for further evaluation.
- (6) **All of the system requirements must be demonstrated in full.**
- (7) To be eligible to proceed to the next stage of the evaluation, the bidder must meet the Minimum aggregate threshold of 80% For the system demonstration of Technical Functionality
- (8) **Weighting of requirements:** The full scope of requirements functionality for Desk Top Evaluation will be determined by the following weights:

No.	Technical Functionality requirements	Weighting
-----	--------------------------------------	-----------

1.	EXPERIENCE	15%
2.	COMPLEXITY	10%
3.	CAPABILITY	75%
TOTAL		

(8.1) **Weighting of requirements:** The full scope of system demonstration on the technical functionality requirements will be determined by the following weights:

No.	System demonstration requirements (technical functionality)	Weighting
1.	System Demonstration requirements	100%
TOTAL		100 %

2.4.1 TECHNICAL FUNCTIONALITY

DESK TOP EVALUATION:

NON-MANDATORY REQUIREMENTS	SUBSTANTIATING EVIDENCE AND EVALUATION CRITERIA	WEIGHT (%)										
<p>1. OVERALL BIDDER'S EXPERIENCE REQUIREMENTS</p> <p>The Bidder must substantiate its past <u>10 years' experience</u> in delivering any License Management System or Queue Management System</p> <p>NB: To substantiate, the bidder must attach reference letters from its clients where the proposed e-Service Management System or Queue Management System were delivered.</p>	<p>Evaluation Criterias:</p> <p>1 a) Total <u>number of Projects</u> and/or Services delivered in the past 10 Years.</p> <table border="1"> <tr> <td>1 Project</td> <td>1 Points</td> </tr> <tr> <td>2 Projects</td> <td>2 Points</td> </tr> <tr> <td>3 Projects</td> <td>3 Points</td> </tr> <tr> <td>4 Projects</td> <td>4 Points</td> </tr> <tr> <td>5 Projects</td> <td>5 Points</td> </tr> </table>	1 Project	1 Points	2 Projects	2 Points	3 Projects	3 Points	4 Projects	4 Points	5 Projects	5 Points	20%

Mr S Ngcobo	30 May 2022	Details analysis workshop was held and requirements were conducted

1. Introduction

1.1 Aim

The aim of this document is to define the user requirements for the development of eLicensing System for the KZN DOT.

Using the identified business requirements, applying best practice and harvesting from the current business functions informs the “to be delivered” functional and system solution to ensure the most effective and improved business and functional solution for the requirements.

1.2 Background

The Department developed its SDIP for the 2018-2021 MTEF. The situational analysis was conducted to assess the current situation within the Motor License Bureaus (MLB’s) and Driving License Testing Centre (DLTC’s) with a view to highlight the successes and problem areas. It was discovered that most of the challenges are long queues and waiting times to receive service, be it the registration and renewal of motor licenses, or application and issuing of learner and driving licence. To align the Department with improvement in systems and processes in the Driving License Testing Centre (DLTCs) and Motor License Bureaus (MLB’s) in order to improve service delivery, the management of DLTCs and MLBs resolved to automate systems and processes as per the 2018 – 2021 SDIP.

Due to the complex nature of services offered in the above-mentioned walk in centres / service delivery points, the Department solicited the consultancy services to conduct a research on which services can be automated and the benefits of automation thereof.

The following services are rendered in the Motor License Bureau (MLB) and the Driving License Testing Centre (DLTC):

- a) Provision of registration and licensing of motor vehicle (MLB)
- b) Provision of learners and driving licenses (DLTC)

1.2.1 Vision

**The vision of the KwaZulu-Natal Department of Transport is:
“Prosperity through smart transport system”.**

1.2.2 Mission

**The mission of KwaZulu-Natal Department of Transport is:
“We will strive to provide mobility through an affordable transportation system that is safe, integrated, regulated and efficient to support the movement of goods and people and that enables the socio-economic development needs of our province and its citizens”**

1.2.3 Values

The values that guide and define the ethos of the Department are the following:

- a) Good governance
- b) Professionalism
- c) Innovation
- d) Leadership
- e) Teamwork

2. Problem statement

There are currently long queues, undesired service times due to aging systems and processes, resulting to frustrated citizens being serviced by the Department. If the Department ignores these problems, resources will need to be increased to handle the cascading problems.

Furthermore, this may adversely affect the Department in meeting deadlines, which will result in loss of revenue, create unnecessary litigations, and further damage the Department's reputation.

In a nutshell, the following problems were identified:

- a) Long queues
- b) Long service times
- c) Aging processes
- d) Paper-heavy processes
- e) Lack of complaints management
- f) Lack of access for citizens with limited physical abilities
- g) Alleged fraud
- h) Lack of access to the internet
- i) Manual operations
- j) Current legislative framework

3. Objectives and Business Requirements

3.1 Business and management Objectives

The overall objective of this project is to improve services delivery and overall operational efficiency in the DLTCs and MLBs through automation using an end-to-end processes. Through automation, the Department will therefore, be able to provide customers with simpler, better, and faster services.

3.2 Project Objectives

The project is intended to provide the Department with a fully functional eLicensing Management system that meets the management and departmental objectives within allocated period and within the allowable budget. The project has been initiated with a compilation of a comprehensive requirements specification (this document).

3.3 System Objectives

The proposed e-Licensing Management System has the following objectives:

- a) Enable the Department to manage authorisation of driving and learner's license;
- b) Prevent irregular and fraudulent re-registration of stolen vehicles
- c) Manage driving license renewals
- d) Manage bookings for learner's and drivers licensing
- e) Monitor and measure queuing performance;
- f) Minimise long waiting times;
- g) Provision of real-time reporting

4. Organogram and Functions

4.1 Organisation structure

Figure 1 and 2 in this section depicts the organisation structure of Motor License Bureau (MLB) and Driving License Testing Centre (DLTC).

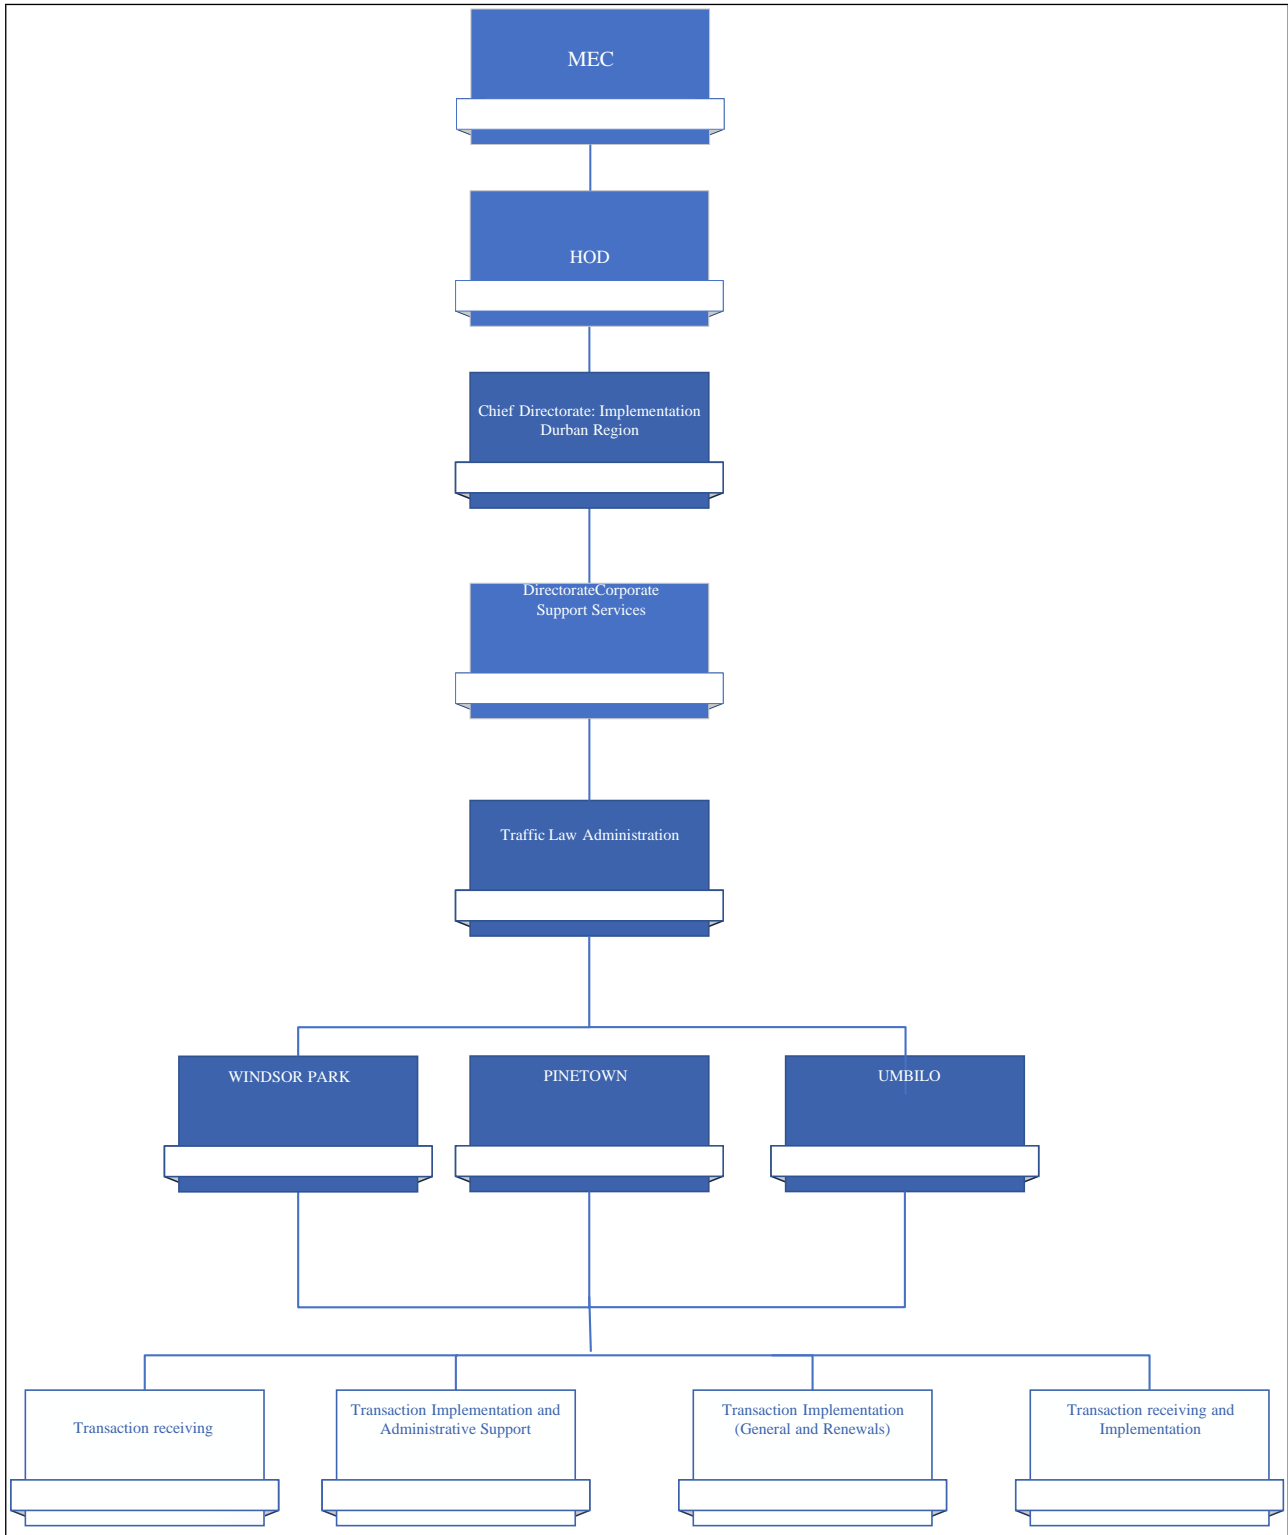

Figure 1: Motor License Bureau (MLB) Organisation Structure

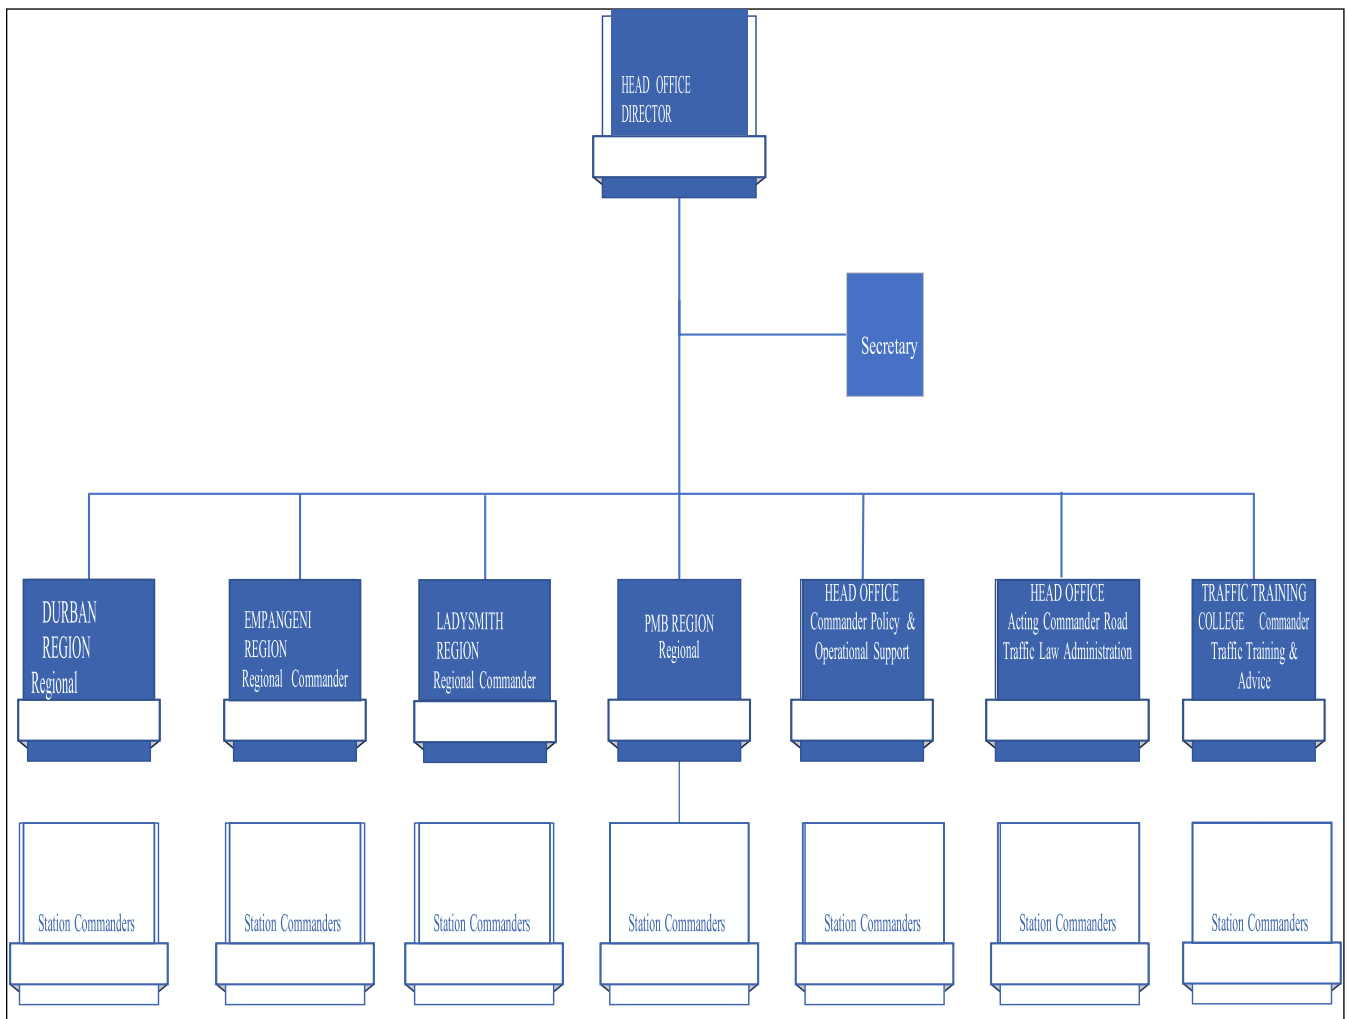

Figure 2: DLTC Organisation Structure

4.2 Functions

The primary services provided by the Motor Licensing Bureau (MLB) Directorate are the following:

- a) Establishing a register of all motor vehicles through the registration of manufacturers of motor vehicles;
- b) Identifying and monitoring the source of motor vehicles through the registration of manufacturers, importers and builders of motor vehicles;
- c) Identifying the title holder and owner of every registered motor vehicle;
- d) Recording full particulars in respect of every registered motor vehicle in order to positively identify every motor vehicle;
- e) Collecting annual motor vehicle licence fees and keeping the particulars of all registered motor vehicles up to date through the licensing of motor vehicles, thus keeping in line with road safety requirements;
- f) Ensuring that licence discs are issued only in respect of motor vehicles that have been certified as roadworthy and in respect of which the appropriate motor vehicle licence fees have been paid;
- g) Recovering of outstanding licence fees due on any of his/her other vehicles (linking debt);
- h) Maintaining a register of all vehicles suspended by law enforcement officials;
- i) Registration of Vehicle Testing Stations;
- j) Issue of Traffic Register Numbers to persons or body of person without acceptable identification;
- k) Registration and Issue of Trade Numbers;
- l) Issue of temporary and special permits; and
- m) Registration of Operators

The primary services provided by the DLTC Directorate are the following:

- a) Issuance of learners' permits or provisional licences.
- b) Facilitates the theory and practical testing necessary for obtaining a driver's licence.
- c) Assist with the interview process of persons requesting the transfer of Family Island and foreign licences.
- d) Responsible for issuing and renewal of driver's licences.
- e) Facilitates registration, renewal and transfer of vehicles.
- f) Ensure that motor vehicles are inspected and deemed road worthy.
- g) Responsible for the management of public franchises in the country (grant, licensing, transfer, etc.).
- h) Responsible for collection, entering, cleaning, and processing of Road Traffic information.
- i) Upskills officers at the KZN -Traffic Training College by offering courses in Examiner for Driving Licences (EDL), Examiner of vehicles (EOV) and other short courses.

4.3 Problems/ Challenges/ Issues

The following are challenges encountered with the current system:

- a) Service Centres are Congested
- b) Long queues
- c) Long service times
- d) Aging processes
- e) Paper intensive processes
- f) Lack of complaints management
- g) Lack of access for citizens with limited physical abilities
- h) Alleged fraud
- i) Lack of access to the internet
- j) Manual operations
- k) Current legislative framework

5. Proposed System Scope

5.1 High level scope

The proposed system will cater for the following functions at a high level:

1. Develop, supply, and manage e-Services platform

The e-Services portal must provide an end to end process from the time of application to the time the service is delivered to a customer. It must provide information through a secure website that allows end users the ability to apply for a service, pay fines, access digital forms and provides the ability to renew vehicle and driving licenses. The e-Service should also provide for FAQs (Frequently Asked Question) and online support to handle customer queries. The e-Services platform should be able to provide the following services:

- a) Provide online learners license application
- b) Provide online driver's license application
- c) Ability to provide online driver's license card renewals;
- d) Ability to provide online test for learners;
- e) Ability to book for a learner's license test
- f) Ability to book for driver's license test
- g) Provide online PrDP applications
- h) Ability to provide online vehicle registration;
- i) Ability to provide online vehicle license renewal;
- j) Ability to provide online application for vehicle change of ownership;

5.2 Assumptions

The following assumptions have been made:

- a) The application will be hosted on KZN DOT server infrastructure in Pietermaritzburg.

5.3 Benefits

- a) Reduce wait times
- b) Improve service quality
- c) Increase customer loyalty
- d) Achieve staff satisfaction
- e) Improve staff productivity
- f) Utilize customer data
- g) Reduce operational costs
- h) Increase revenue
- i) Prevents Queueing Clashing
- j) Provide real-time information on fraudulent driving or vehicle licenses
- k) Provide improved service with regard to the payment of traffic fines, etc.

5.4 Stakeholders

Relevant key stakeholders of the KZN DOT:

- a) Project Sponsor;
- b) Motor Transport Services
- c) SITA
- d) Internal IT Directorate
- e) Motor Licensing Bureau
(MLB f) Road Traffic
Inspectorate (RTI)
- g) **Driving License Testing Centre (DLTC)**

5.5 Project Type

This project will be based largely on the systems development life cycle applying the relevant approaches, methods and methodology. The eLicensing System is a web-based system that interacts with database and also integrate with eNatis and Queueing Management system for efficient and effective customer services. It is majorly used to manage interactions with the customers and control the queues in order to improve citizens service delivery.

5.6 Integration

- a) eNatis system
- b) Queueing Management system
- c) License Pro (LPRO System)
- d) Live Capturing Unit system (LCU)
- e) Departments of Home Affairs and South African Revenue Service

6. Requirements

6.1 Functional requirements

Table 1: Functional requirements

REQ No.	Required Feature	Feature Value
REQ001	<ol style="list-style-type: none"> 1. The KZNDOT requires a solution that provides <ol style="list-style-type: none"> a) Provision of registration and licensing of motor vehicle (MLB) b) Provision of learners and driving licenses (DLTC) 2. The solution must have a user-friendly interface which requires minimal training to use. 	<ol style="list-style-type: none"> a) Ease of Use b) Minimise the spread of diseases
REQ002	<ol style="list-style-type: none"> 1. The solution must manage the following bookings <ol style="list-style-type: none"> a) Booking for learner's license b) Booking for driver's license c) Booking time slot 	<ol style="list-style-type: none"> a) Bookings

REQ No.	Required Feature	Feature Value
REQ003	<ol style="list-style-type: none"> 1. The solution must enable the end user complete online applications for the following <ol style="list-style-type: none"> a) DTLC applications b) MLB applications 	<ol style="list-style-type: none"> a) Applications
REQ004	<ol style="list-style-type: none"> 1. The solution should have the capability to allow the end users to make payment 	<ol style="list-style-type: none"> a) Payment
REQ005	<ol style="list-style-type: none"> 1. The solution must send notifications to end users' email addresses or mobile device <ol style="list-style-type: none"> a) Payment confirmation notification b) Booking confirmation notification c) Notification to collect licenses d) Escalation notifications e) Allocation of application notification 	<ol style="list-style-type: none"> a) Notifications
REQ006	<ol style="list-style-type: none"> 1. The solution must generate the reports 	<ol style="list-style-type: none"> a) eLicensing reporting
REQ007	<ol style="list-style-type: none"> 1. The solution must be able to integrate with a backend system e.g. eNatis 	<ol style="list-style-type: none"> a) Integration
	<ol style="list-style-type: none"> 1. The solution should have the capability to allow the user to write learner's test online 	<ol style="list-style-type: none"> a) Online learners test

7. Detailed Business Processes

7.1 Driving License Testing Centre High Level Process

This high-level process described the all the services that are managed by the Driving License Testing Centre (DLTCs)

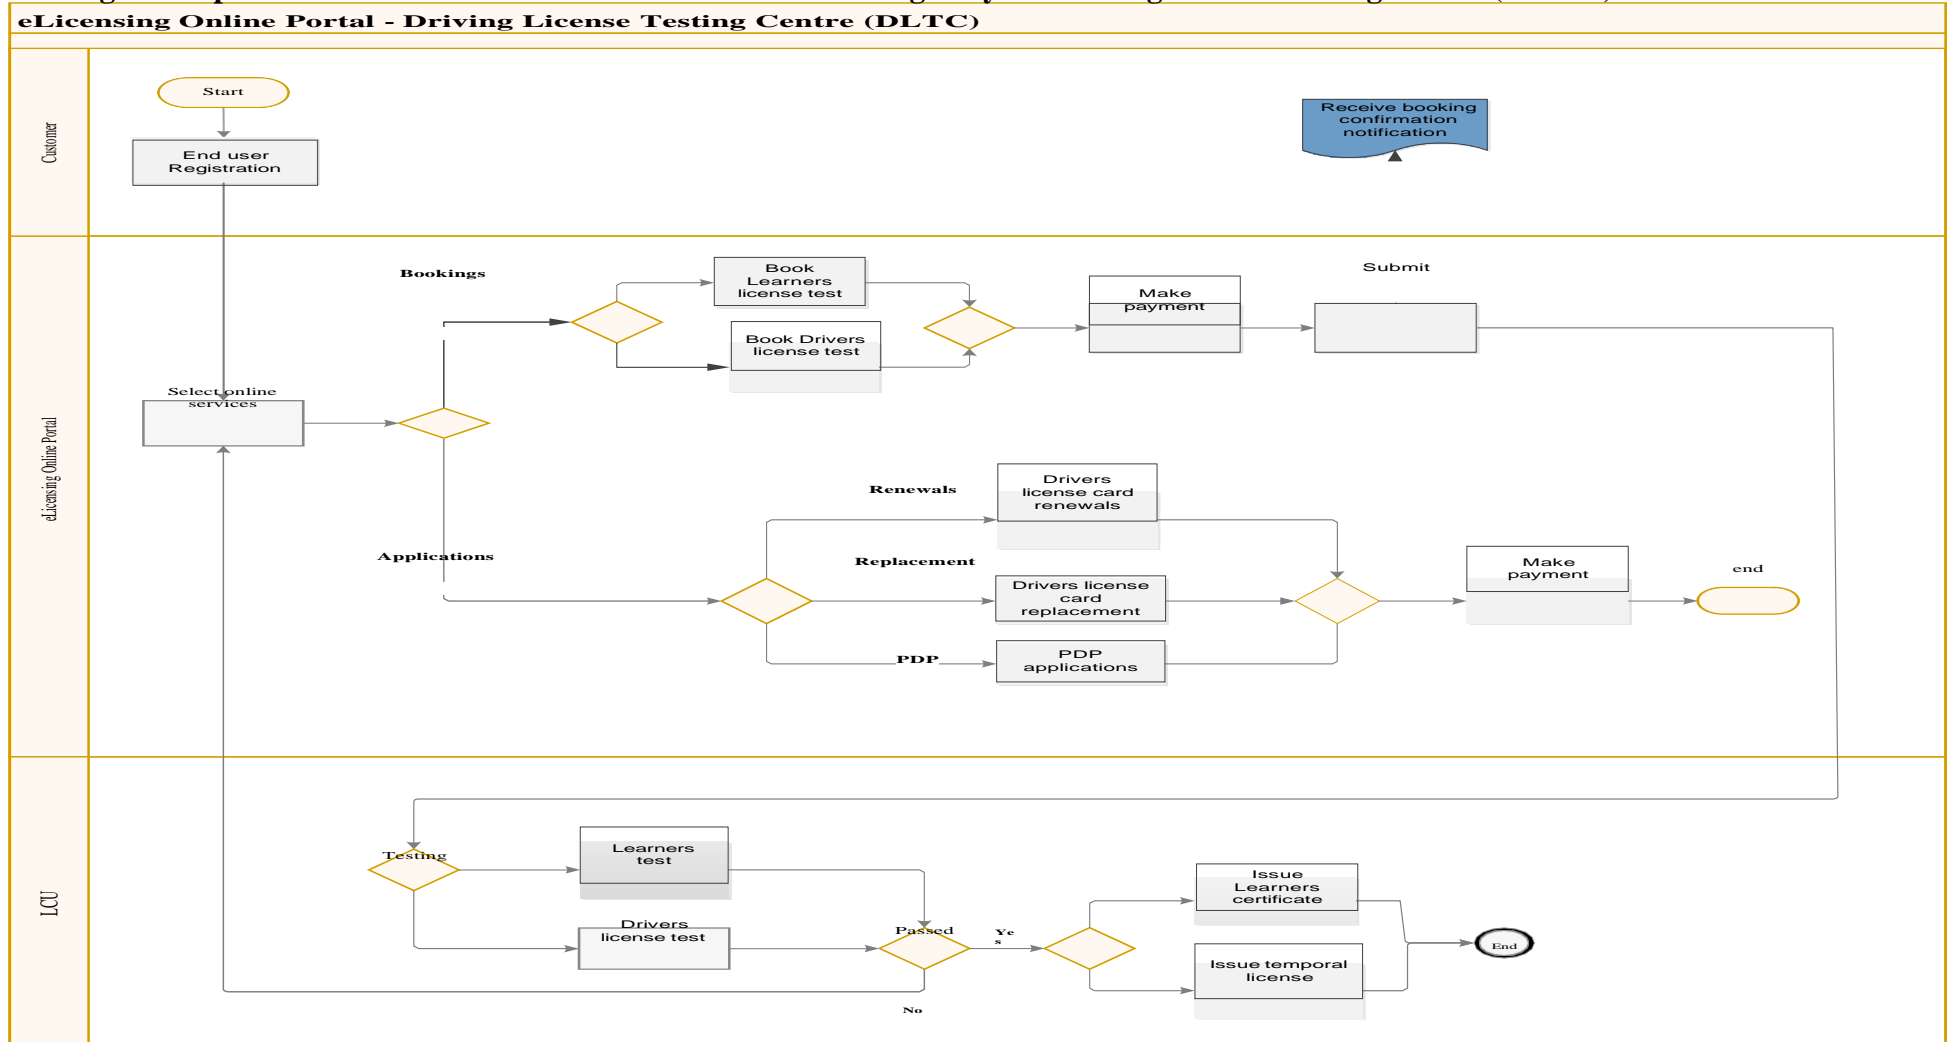

Figure 3: DLTC high level business process

7.2 Driving License Testing Centre High Level Use Case

The use case diagram depicts how different types of users will interact with the proposed system to therquest DLTC services.

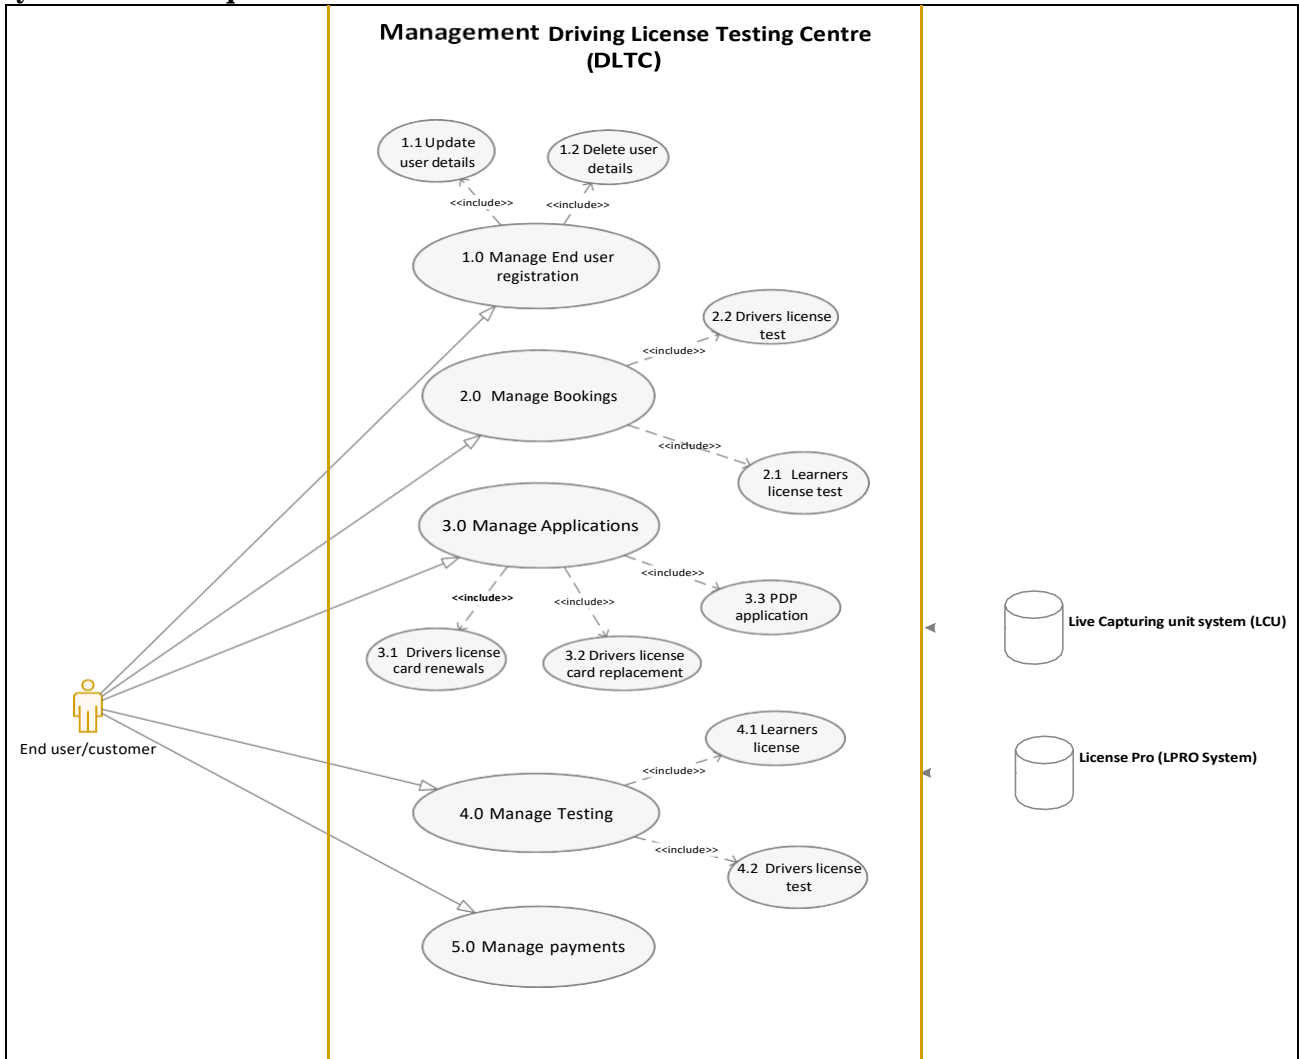

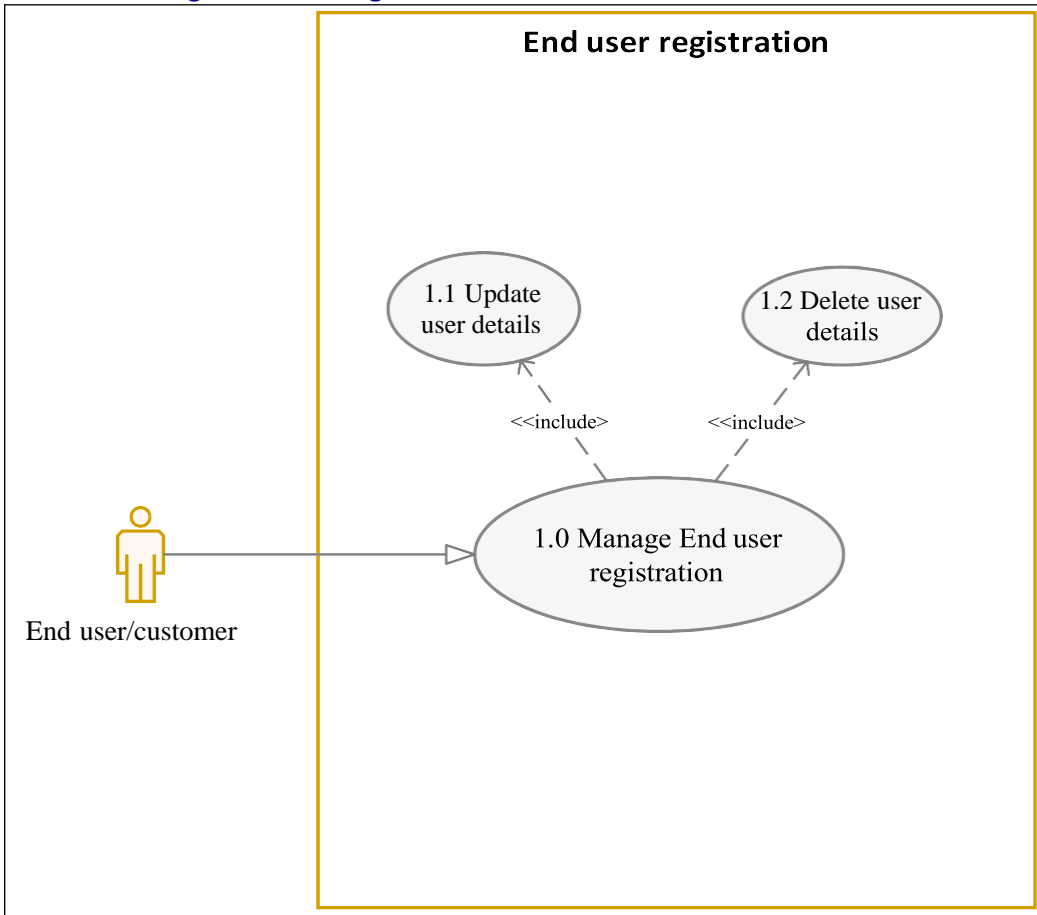

Figure 4: Driving License Testing Centre High Level Use Case

7.2.1 Use Cases Details

The use case diagram depicts how different types of users will interact with the proposed system to request the services.

7.2.1.1 Manage End User Registration Use cases

7.2.1.2 Manage End user Registration

Table 2: Manage End User registration

Use Case ID:	REQ001		
Use Case Name:	Manage End user registration		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	05 July 2022	Last Revision Date:	2909 2022
Actors:	End user		
Description:	The use case describes user’s action to access eLicensing system		
Trigger:	Request to access the eLicensing system		
Pre-conditions:	Request for eLicensing services		
Post-conditions:	End user successfully registered.		
Normal Flow:	<ol style="list-style-type: none"> 1. This use case is initiated when the citizen/ user registers his/ her details to the system. 2. Select “User Registration” from the menu. 3. System displays options to capture information: 4. Enter the First Name 5. Enter the Surname 6. Enter identity number 7. Select Province 8. Enter postal address 9. Enter physical address 10. Enter contact details 11. Enter the email Address of the user. This will be used as the user s’ login. 12. Select “Submit” button. 13. System then validates that all information is entered correctly and saves. 14. A system generated password will be sent to the End user via their email address. 15. When the end user logs on for the first time, the End user will be forced to change their password. 		
Alternative Flows:	<ol style="list-style-type: none"> 1. No name/surname provided, display appropriate error message and halt processing. 2. No email address provided, display appropriate message and halt processing. 		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		
Business Rule	The solution must enable the end user to edit/ update the personal details The solution must enable the end user to delete the personal details		
Assumptions:	Not applicable		
Notes and Issues:	Not applicable

Actors:	End user		
Description:	Upon selection of the service type, the end user completes application for registration of a new motor vehicle		
Trigger:	The request for application has been selected		
Pre-conditions:	Request for MLB services		
Post-conditions:	The Application for registration and licensing has been completed and submitted		

Normal Flow:

1. The end user completes the application form with the following details;

Section A

PARTICULARS OF TITLE HOLDER

- a) Type of identification
 - i.) Traffic RSA ID
 - ii.) Register no
 - iii.) foreign ID
- b) Identification number
- c) Country of issue if foreign ID
- d) Surname and initials
- e) Date of birth
- f) E-mail address
- g) Telephone number at home
- h) Code (number
- i) Contact telephone number during day
- j) Facsimile number -
- k) Code number
- l) Cell phone number
- m) Postal address
- n) Suburb
- o) City/Town
- p) Street address
- q) Suburb
- r) City/Town
- s) postal code
- t) Address where notices

ORGANISATION'S PROXY/REPRESENTATIVE

- a) Type of identification
 - i.) Traffic RSA ID
 - ii.) Register no
 - iii.) Foreign ID
- a) Identification number
- b) Country of issue if foreign ID
- c) Surname and initials

DECLARATION

- a) Select title type
 - i.) title holder
 - ii.) organisation's proxy
 - iii.) organisation's representative
 - iv.) motor dealer
- b) Signature – one-time pin
- c) Place
- d) Date

Section B

PARTICULARS OF OWNER

- a) Type of identification
 - i.) Traffic RSA ID
 - ii.) Register no
 - iii.) foreign ID
- b) Identification number
- c) Country of issue if foreign ID
- d) Surname and initials
- e) Date of birth
- f) E-mail address
- g) Telephone number at home
- h) Code (number
- i) Contact telephone number during day
- j) Facsimile number -
- k) Code number
- l) Cell phone number
- m) Postal address
- n) Suburb
- o) City/Town
- p) Street address
- q) Suburb
- r) City/Town
- s) postal code
- t) Address where notices

ORGANISATION'S PROXY/REPRESENTATIVE

- a) Type of identification
 - i.) Traffic RSA ID
 - ii.) Register no
 - iii.) Foreign ID
- d) Identification number
- e) Country of issue if foreign ID
- f) Surname and initials

DECLARATION

- a) Select title type
 - i.)title holder
 - ii.) organisation's proxy
 - iii.) organisation's representative
 - iv.) motor dealer
- b) Signature
- c) Place
- d) Date

SECTION C**PARTICULARS OF MOTOR VEHICLE**

- a) Licence number or not yet allocated
- b) Vehicle register number
- c) NaTIS model number
- d) Chassis number/VIN
- e) Make
- f) Series name
- g) Vehicle category
- i.) Motor cycle/Motor tricycle/Motor quadricycle

Business Rule	<ol style="list-style-type: none"> 1. Received applications must be processed within 5 working days 2. Applications that are not processed within these pre-defined time lines will be escalated to the next level up in the hierarchy. The ownership or accountability to manage the application will also be transferred during the escalation 3. Cashiers can reject an application with reason 4. Officials must be allowed to access the eLicensing system reporting functionalities according to their roles 5. All applications sitting with Cashiers for more than 60 days will activate a notification to the Supervisor 6. Notifications will be sent out to inform the customer about the progress of their application 7. Cashiers must distribute the certificates for all the approved applications based on the collection method preferred by the customer.
	Not applicable
Notes and Issues:	Not applicable

10.2 Non-functional requirements

Table 46 represents the non-functional requirements for the eLicensing system:

Table 70: Non-functional requirements

NFR No.	Requirement	Description
NFR001	Security	Access to the solution must be restricted to authorised client's agent/ other End user s
NFR002	Authentication of End user s	There must be a secure login for end user agents/ other End user s
NFR003	An online solution to provide the capacity to handle the estimated transaction volumes	The system must have the capacity to handle the volume of transactions Attributes: a) Network capacity b) Processing capacity c) Data Storage capacity
NFR004	Scalability	The solution should be able to handle an increase in the number of transactions and new functionality.
NFR005	Data integrity must be maintained to ensure that only valid and quality data is stored in the database	Ensure that data is of quality in terms of validity, accuracy and usability
NFR006	Fit for purpose	The solution must ensure that the business and technical requirements are clearly understood and implemented to enable the KZN DOT service delivery Attributes: a) Compliance to requirements b) Compliance to relevant and applicable standards
NFR007	Audit Trail	Provide an audit trail facility to track transaction history thus enabling history tracking of transactions as well as dispute resolution Attributes: a) Transaction history recording b) Record End user actions
NFR008	Functional support	To be documented in a service level agreement (SLA) during project implementation.
NFR009	Hosting services	To be documented in a service level agreement (SLA) during project implementation.
NFR010	Application Development services	Comply with the Policy on Free and Open Source Software (FOSS) use for South African Government.
NFR011	24/7 availability of the solution	The solution must be available for both the end user and departmental officials anytime

10.3 Service Level Agreement Requirements

The following requirements are to be incorporated in the Service Level Agreement (SLA) between SITA and Department of Transport after the implementation of the chosen solution:

Table 71: SLA requirements

SLAR No.	Requirement	Description
SLR001	Hosting	The solution must be hosted in South Africa on a private cloud.
SLR003	Technical support	The solution with support services will be required in line with Department's functioning (24 hours per day, 7 days per week, 52 weeks per year).

10.4 Reporting requirements

Table 72: Reporting requirements

RR No.	Required Feature	Reason
REP001	1. A report that list the End user s of the system is required: a) End user Name b) Last logged in to the system	Control End user access to the system
REP002	Reports to be confirmed by the Department	Manage real time reporting

10.5 Operational and Implementation Requirements

The following operational requirements must be kept in mind when choosing an appropriate solution:

Table 73: Operational and Implementational Requirements

OIR No.	Requirement	Description
OR001	Operating hours	The solution will have to be operational 24 hours per day, 7 days per week, 52 weeks per year in order to suit the possible operating hours of the Department.
OR002	Technical Support	Technical support service must be available to the end user 24 hours per day, 7 days per week, 52 weeks per year in order to suit the possible operating hours of the Department.
OR003	Organisational Change Management	During implementation of the solution, SITA must make provision for organisational change management as well as end-End user training across the Department.
OR004	Vulnerabilities	Vulnerability assessments should be automated for the SITA platforms only and such SITA any identified vulnerabilities should be fixed.
OR005	Security	The solution must be securely accessible anywhere in the around. Customized algorithm installed on VPN devices and all data flow encrypted as recommended by SSA. All activities should be logged and security incidents and breaches should be identified, reported and resolved. SITA must adhere to all Security Policies on the Government Network, i.e. SITA Next Generation Network (NGN) to enable all network security firewalls to support the Video Conferencing Solution. Other security and compliance requirements are stated below: a) Single sign-on capability. The systems should be able to integrate with Active Directory for single sign-on. b) Encryption – All communication and data should be encrypted at rest and in transit. End-to-end encryption is required.
OR006	Implementation Services (Overall)	Package the product for deployment. Deployment of the product into the production environment.
OR007	Business Process Management	The Department will be responsible for Business Process management.
OR009	Data connection	A stable data connection is recommended however existing application bandwidth must also be considered which SITA can assess and advise
OR010	Training	Officials must be trained on how to use the system and they must be supplied with End user manuals.

OIR No.	Requirement	Description
OR001	Operating hours	The solution will have to be operational 24 hours per day, 7 days per week, 52 weeks per year in order to suit the possible operating hours of the Department.
OR002	Technical Support	Technical support service must be available to the end user 24 hours per day, 7 days per week, 52 weeks per year in order to suit the possible operating hours of the Department.
OR003	Organisational Change Management	During implementation of the solution, SITA must make provision for organisational change management as well as end-End user training across the Department.
OR004	Vulnerabilities	Vulnerability assessments should be automated for the SITA platforms only and such SITA any identified vulnerabilities should be fixed.

10.6 Integration/Interface requirements

The following table summarises all the interfaces required for the proposed solution:

Table 74: Interface requirements

Integration	Data Owner	Description
eNatis	DOT	The solution must have an add-on or integration with eNatis system as this will enable the Department to track the client's journey through the business, which is good for improving customer experience.
Home Affairs system	Home Affairs	Home Affairs applications
Queueing Management system	DOT	A Queue Management System manages the customer's waiting experience throughout their entire journey, from pre-service to post-service. The solution contains either or both software and hardware that help businesses to facilitate the customer's access to service, to plan and manage customer flow and staff, and to gather data to improve the customer experience.
SARS SYSTEM	SARS	SARS applications
Live Capturing Unit (LCU) system	DOT	The new LCU technology allows for online, real-time capturing on E-Natis of applications. The LCU can electronically scan an applicant's Identity Document or Driving Licence Card to update the relevant personal data of the applicant on the system. It captures and records the results of an applicant's eye test and finger prints, while at the same time capturing an applicant's signature and photograph.

11. Implementation and Functional Application Support Requirements

The below information is required in order to get a clear understanding of the client's requirements. It is aimed at making sure that all areas are covered and that the correct questions are answered during end user engagements.

The following categories are included for implementation:

- a) Solution Implementation and Migration Services
 - i. Organisational Change Management
 - ii. Data Management
 - iii. Business Process Management
 - iv. Technology Management
- b) Functional Application Support (6 weeks post go-live)
- c) Application Training.

11.1 Solution Implementation and Migration Services

Implementation Services is responsible for the implementation of new systems, applications and products into the end user environment

Table 75: Solution Implementation and Migration Requirements

SIMR No.	Requirement	Description	Response
IMP001	Organisational Change Management	The service provider will provide change management advice and support to the client, including internal stakeholder management. However, the execution of the change management functions is usually performed by the client's structures, in consultation with SITA. The following deliverables are available. Is this required in your organisation, should you require the service:	Comment:
		a) Environmental assessment	Yes / No
		b) Change Management approach and plan	Yes / No
		c) Communication plan	Yes / No
		d) Stakeholder matrix	Yes / No
		e) Change impact assessment and report	Yes / No
		f) Pre-Go live readiness assessment and checklist	Yes / No
		Will any jobs within the end user organisation be affected or changed by this implementation?	Yes / No
		Please indicate the number of End users that will be impacted.	
		Where are the End users who are impacted by the implementation situated?	
	Please provide the number of offices and the location of these offices.		
IMP002	Data Management	Please confirm the following data requirements for the implementation:	
		Do you have any legacy system data that must be imported into the new system? If "Yes", please list the systems:	Yes / No
		Are there any additional data required to ensure that the system is operational? If "Yes", please list the systems:	Yes / No
		Are there any interfaces required with other systems? If "Yes", please list the systems:	Yes / No
		Is there a requirement for any new master data to be defined / imported? If "Yes", please list the data such as categories, codes, structures, workflow, etc.	Yes/ No
IMP002	Data Management	Please confirm the following data requirements for the implementation:	
		Do you have any legacy system data that must be imported into the new system? If "Yes", please list the systems:	Yes / No
		Are there any additional data required to ensure that the system is operational? If "Yes", please list the systems:	Yes / No
		Are there any interfaces required with other systems? If "Yes", please list the systems:	Yes / No
		Is there a requirement for any new master data to be defined / imported? If "Yes", please list the data such as categories, codes, structures, workflow, etc.	Yes/ No
IMP003	Business Process Management	To what extent will the current business processes and workflows within your organisation be impacted?	No impact Small impact Medium impact Large impact
		Is a mapping between 'as-is' and 'to be' required?	Yes / No
		Will it be necessary to train the employees on the new business process?	Yes / No

SIMR No.	Requirement	Description	Response
		Do you require an assessment on any legislative impacts that may result due to the implementation?	Yes / No
IMP004	Technology Management	Will the implementation impact on other end user technology components for the client, e.g. servers, desktops, network?	Yes / No
		If "Yes", do you need SITA to do a Technology Readiness Assessment?	Yes / No
		If "Yes", please list the affected sites and the expected number of End user s per site.	
IMP005	Support Requirements	Please confirm if you need stabilisation support (mostly on-site support to End user s as part of the initial implementation project, to iron out any final problems and to support End user s in the initial usage of the system, before the implementation project comes to an end (usually for a short period of about two months).	Yes / No

11.2 Functional Application Support

Functional Application Support (FAS) is the support rendered to clients after the implementation of the solution. The support is rendered on calls logged on the SITA call logging system, and is managed via an SLA between SITA and the client.

Table 76: Functional Application Support Requirements

FASR No.	Requirement	Description	Response
FASR001	Post Implementation Functional Application (FAS) Support	Will FAS be required post-implementation? If "Yes", please indicate the following:	Yes / No
		(a) If support is required across multiple provinces/locations, please list the locations:	
FASR002	Provincial Support	If support is required at the provinces and will each province be responsible for their own support costs or will it be a covered on a National SLA?	
		Please indicate the estimated number of system End user s per location that must be supported	
FASR003	Standby and Overtime Hours	Are there any support services required for after working hours? Note working hours are between 08h00 to 16h30, after hours is any work done after 16h30 Any support beyond SITA's normal working hours (08h00 - 16h30) for the application must be indicated as there will be a standby allowance of R200 per day per resource that will be included in the SLA pricing. Should there be any actual work done after hours such as testing of the system due to enhancements, or any emergency technical issues that must be fixed after hours, it will incur overtime costs to the client. The actual amount as per the overtime hours worked, the end user will be invoiced additionally for those hours	Yes / No
FASR004	Help Desk	Please indicate if you would require a Help Desk facility for call logging, or if you would use you own in-house Help Desk:	
FASR005	Ad-hoc or on the job training	Will the department use super End user s to conduct ad-hoc/on the job training to End user s/new staff or is it expected of the FAS Team to do so? The end user will be billed for travel and S&T.	

11.3 Application Training

Application Training provides an end-to-end training service to both the end user administrators and end- End user s of a system, as well as the training of trainers. The application training service offerings are listed within table 9. Indicate the training requirements in the Response column.

Table 77: Application Training Requirements

ATR No.	Requirement	Description	Response
TRR001	Course design specification	This document provides the specifications for the training material development and training delivery approach as per the training requirement. This is a standard document required to be compiled for any training request.	Yes
TRR002	Online help for front-end End user s	A “How To” guide on how to perform the required transactions on the front-end (citizen-facing) part of the application. It can be accessed from the application home/landing page. This is especially useful for e-Services applications.	Yes / No
	End user guide for front-end End user s	A PDF version of the online help, which can be downloaded and printed if required. This is especially useful for e-Services applications and can also be used for training purposes.	Yes / No
TRR003	Online help for back-end End user s	A “How To” guide for Departmental officials on how to perform the required transactions on the back-end part of an application. It can be accessed from the application home/landing page.	Yes / No
	End user guide for back-end End user s	A PDF version of the online help, which can be downloaded and printed if required. It can also be used for training purposes in conjunction with a facilitator guide (if required).	Yes / No
TRR004	Training manual	The manual consists of a course outline/overview and learning units with learning outcomes, usually according to the main menu of the application. It is a more formal manual than a End user guide, but contains the same information in terms of the process steps of the functions. It is especially useful when a train-the-trainer approach is followed, used in conjunction with a facilitator guide (if required).	Yes / No
TRR005	Facilitator guide	The guide will be provided to the trainers when a train-the-trainer approach is followed, if required. It provides information and guidelines in terms of pre- and post-course preparation, as well as training delivery (learning outcomes, course programme, etc.). It can be used in conjunction with a training manual or End user guide.	Yes / No
TRR006	Assessment guide	This document will be compiled if the End user s must be assessed at the end of the training. It includes the assessment approach, assessment guidelines, formative exercises and question paper for the summative assessment at the end of the training.	Yes / No
TRR007	Pilot training	A pilot training session is conducted prior to the training delivery to evaluate the training material and training methods. The feedback and recommendations from the role players will be discussed, consolidated and applied to the respective training documents. If “Yes”, please indicate the following:	Yes / No
		Must the training be classroom-based? If “Yes”, please specify the venue.	Yes / No

		Must the training be presented online? If "Yes", please specify the platform: a) MS Teams b) Jitsi c) Skype.	Yes / No Yes / No Yes / No Yes / No
--	--	---	--

ATR No.	Requirement	Description	Response
		Must it be a full simulation of the training?	Yes / No
		Must it be an abridged version of the training?	Yes / No
TRR008	Training of trainers	SITA will train trainers as identified by the client, who will in turn train the other end-End user s. If “Yes”, please indicate the following:	Yes / No
		(a) Must the training be presented at a SITA venue? NOTE: i. SITA does not have training venues in all provinces. ii. The maximum number of delegates per session will be determined by the social distancing protocol applicable at the time. iii. The use of personal protective equipment will be adhered to.	Yes / No
		(b) If “Yes”, please indicate whether catering services are required at the SITA venue. This will be provided if possible, depending on the lockdown regulations at the time.	Yes / No
		(c) Must the training be presented at a end user venue? If “Yes”, please specify the location(s).	Yes / No
		(d) Must the training be presented online? A maximum of 15 delegates can be accommodated to keep the group manageable during training. If “Yes”, please specify the platform: i. MS Teams ii. Jitsi iii. Skype.	Yes / No Yes / No Yes / No
		(e) How many trainers must be trained?	
		(f) Must the trainers write an assessment?	Yes / No
		(g) Are training certificates required?	Yes / No
TRR009	Training of end-End user s	The end-End user s will be trained by SITA. If “Yes”, please indicate the following:	Yes / No
		(a) Must the training be presented at the SITA Centurion training centre? NOTE: i. SITA does not have training venues in all the provinces. ii. The maximum number of delegates per session will be determined by the social distancing protocol applicable at the time. iii. The use of personal protective equipment will be adhered to.	Yes / No
		(b) If “Yes”, please indicate whether catering services are required at the SITA venue. This will be provided if possible, depending on the lockdown regulations at the time.	Yes / No

ATR No.	Requirement	Description	Response
		(c) Must the training be presented at a end user venue? If “Yes”, please specify the location(s).	Yes / No
		(d) If the training venues are decentralised, please specify the number of end-End user s to be trained at each location.	
		(e) Must the training be presented online? A maximum of 15 delegates can be accommodated to keep the group manageable during training. If “Yes”, please specify the platform: i. MS Teams ii. Jitsi iii. Skype.	Yes / No Yes / No Yes / No
		(f) How many end-End user s must be trained?	
		(g) Must the end-End user s write an assessment?	Yes / No
		(h) Are training certificates required for the end-End user s?	Yes / No
TRR010	Any additional training requirements or information		

12. Exclusions

The following will be excluded from the provisioning of goods and/or services regarding this request:

- a) Data migration.
- b) Existing Department hardware and/or software updates/upgrades.
- c) Bandwidth expansion or improvement and/or connectivity of end-End user s.
- d) Any software licences which are optional or not specified.
- e) Any subscription services not specified.
- f) Mobile voice and data connectivity facilities.
- g) Additional network points for end End user s.

13. Risks / Dependencies

There are several foreseeable risks involved in the provisioning and/or operation of the required solution. Such perceived risks should be addressed during the analysis, selection and implementation of the required solution to ensure sovereignty of parliament and the South African citizens as a result.

The following risks have been identified at this early stage and does not serve as an exhaustive list of risks:

- a) Protection of information of client.
- b) Authentication and verification of Departmental End user s.
- c) Scalability of the solution to accommodate all required functionality that may be constrained by the hosting infrastructure, network capacity and the solution.
- d) Sufficient skilled resources availability to maintain, sustain and support both the solution and the meetings when in session.
- e) Availability of required functionality as per this URS.

Annex A : Abbreviations and Definitions

Term	Definition
ALV	Application for licencing of motor vehicle
Application (FAS)	Application Functional Support
CCV	Card code verification
CRW	Certificate of Roadworthiness
CNV	Change of particulars of notice i.r.o. motor vehicle
DCT	Declaration in respect of lost document
DLTC	Driving License Testing Centre
DOT	Department of Transport
eNatis	The National Traffic Information System
FAQs	Frequently Asked Question)
GVM	Gross vehicle mass
ID	Identity document
IT	Information Technology
KZN	KwaZulu Natal
LPRO System	License Pro
LCU	Live Capturing Unit system
MIB	Manufacturer, Importer or Builder
MLB	Motor License Bureaus
MTEF	Medium-Term Expenditure Framework
MVR	Application in respect of licence number for motor vehicles
NCO	Change of ownership
NCP	Notification of change of address or particulars of person
OTP	One Time Password
PrDP	Professional drivers permit
RLV	Application for registration and licencing of motor vehicle form
RPC	Request for Police Clearance
RSA	Republic of South Africa
RSN	Retention of the system License number
RTI	Road Traffic Inspectorate
SDIP	Service Delivery improvement plans
SITA	State Information Technology Agency
SLA	Service level agreement
TSP	Temporary / Special Permit
VIN	Vehicle identification number

Identification: 72022153
Date: 2014-06-

Dear Sir/Madam

TRANSFER OF PROVINCIAL PERSONALISED LICENCE NUMBER:JC'

1. The notification of transfer of ownership received on 2014-06-27 , refers.
2. Should you still wish to transfer JCS-ZN onto Honey pot Investments 192's name attached completed Application in respect of a Personalised Licence Number (PLN) for yourself and Honey pot Investments 192 to the Choice Numbers Section, together with R 1100-00. All bank guaranteed or bank/building society drawn cheques will be accepted. All cheques to be made payable to KZN TRANSPORT: REVENUE.
3. Further, the vehicle bearing the personalised licence number will have to be inspected before the transfer can be effected. In order for the NaTIS generator to generate a RLV and MVR2 form and submit this together with the personalised licence identification and an amount of R 250-00, which is an administrative fee, as any adjustment licence fees to your appropriate registering officer.
4. Upon receipt of the attached PLN1 forms, the attached schedule of payment of the required fee, the Choice Numbers Section will issue a provincial personalised licence number certificate (PRN) to you. If you do not respond to the abovementioned requirements within the stipulated time, the transfer will be null and void.
- 5 Please note that the cost of the plates will be transferred to you. The original plates are to be returned to the manufacturer.
- 6 Correspondence in this regard is being directed to you.
7. I trust that this arrangement will be to your satisfaction.

Yours faithfully

Introduction

1.1 Aim

The aim of this document is to define the high-level user requirements for the development of Queuing Management System for the KZN DOT.

Using the identified business requirements, applying best practice and harvesting from the current business functions informs the “to be delivered” functional and system solution to ensure the most effective and improved business and functional solution for the requirements.

1.2 Background

The Motor Licensing Bureau’s, Pietermaritzburg, Durban, Pinetown, Newcastle and Ulundi collectively have a staff establishment of 237 consisting of 205 filled posts and 32 vacant posts. The 67 Registering Authority agents contracted to the Motor Licensing Bureau for the registration and licensing function throughout KwaZulu-Natal also collectively represent a staff compliment of ±700. The Motor Licensing Bureau undertakes agency support for the latter mentioned Registering Authority staff, and in addition, also undertakes the conducting of regular inspections at these offices, situated throughout KwaZulu-Natal.

The Road Traffic Information (RTI) Unit collates, analyses road traffic and crash data required by decision makers for planning and publishing of road safety reports. The unit is responsible for the road traffic information management and provision of road traffic information to both internal and external stakeholders for the planning and co-ordination of law enforcement programmes and operations. Furthermore, RTI Unit provides up to date, reliable and accurate data to inform research and development, in order to review or develop regulations and laws that will assist in combating the occurrence of road crashes.

The Department of Transport KwaZulu Natal is currently undergoing a modernisation initiative which focuses on transformation of processes, technology and human capabilities to further enhance current operations, increase workflow outputs and decreasing the large volume of queues thus improving quality of service rendered.

The Department of Transport KwaZulu Natal has an opportunity to change the current client experience by continuously improving operations in all the walk-in centres. The objective is to streamline the flow of clients in the walk-in centres, whilst increasing the productivity of staff and reducing the waiting times in the queues.

1.2.1 Vision

The vision of the KwaZulu-Natal Department of Transport is:

“An Enabling Transportation Gateway to Africa and the World”. This means that the Department will strive to ensure that KZN becomes a gateway connecting Africa and the world through a safe, affordable, reliable and integrated provincial transport system.

1.2.2 Mission

The mission of KwaZulu-Natal Department of Transport is:

“We will strive to provide mobility through an affordable transportation system that is safe, integrated, regulated and efficient to support the movement of goods and people and that enables the socio-economic development needs of our province and its citizens”

1.2.3 Values

The values that guide and define the ethos of the Department are the following:

- a) Good governance
- b) Professionalism

- c) Innovation
- d) Leadership
- e) Teamwork

1. Problem statement

The environmental analysis has identified that the operating environment in the Department is characterised by manual and cumbersome paper-based processes that make governance and delivery burdensome. This is particular so for high risk and high-volume transactional areas of work that are currently inefficient and ineffective due to their manual nature.

Manual information management, especially for infrastructure programme implementation, has become a perennial challenge across the different levels of the Department. Infrastructure project management, governance and reporting is hamstrung by a lack of systems and technology. This situation is equally applicable to other non-infrastructure functions and work areas in the Department. Most administrative processes are still manual and paper-based and pose accounting challenges as record and information management become more and more unmanageable.

Information technology thus remains a key for improving overall efficiency, effectiveness and accountability in the Department. In an effort to meet service delivery and governance improvement goals effectively, the Department has to leverage off Information Technology enabled solutions. In an effort to respond to this challenge, different programmes are prompted to seek their own technology and process modernisation solutions.

2. The impact of Queueing Management system into DOT Digital Transformation Strategy

The main thing on everybody's mind is the COVID-19 pandemic. Managers everywhere in the Departments have concern for their branch's ongoing ability to help customers and keep their staff safe. Regardless of your feelings about the virus, public perception has affected customer visitation. This has been ongoing ever since the start of the outbreak. Visitors no longer wish to spend time around others, and public areas have shown concern about liability.

One solution is customers being able to add themselves to a virtual queuing system. This way, they no longer need to stand in line and can instead take a queue place by signing into an app, then waiting outside, in their car, or finish up their errands while they wait. The best vendors provide a method via scanning a QR code or visiting a link on their mobile device to encourage visitors to add themselves to the queue. In some circumstances, customers could instead add themselves to the line through a kiosk in the branch. This is especially useful for demographics who may be uncomfortable with technology or do not have a smartphone. These customers can then spread themselves throughout the store away from one another. They may even leave the location and return when called, should there be occupancy limitations.

The proposed Queueing Management System has the following impact:

- a) Customer flow is optimized - electronic queuing manages customers in a more efficient manner which leads to optimal customer flow through the waiting line. This transformation will also allow service agents to focus on their work, and even allows customers to "zone out" for a bit without worrying that they'll miss their turn or hold others up behind. Add to this queue monitoring technology, and managers can receive real-time metrics to sufficiently and quickly respond to the flow of the waiting line.
- b) The customer experience is enhanced – Digital transformation is changing the way customers wait in line. Many businesses are implementing virtual queues to eliminate the actual waiting line, which frees customers to shop while they wait or attend to other tasks, and allows them to receive text alerts about when their turn in line is imminent.
- c) Client Agents become more efficient - Queuing technology improves the productivity of service agents and cashiers (which also cuts costs). Through queue management systems, customers can be addressed more efficiently with little to no downtime for service agents.

More importantly, managers are able to keep a close watch on service times and productivity of the key staff members who serve a queue, ensuring that no back-ups occur unnecessarily.

3. Objectives and Business Requirements

4.1 Business and management Objectives

The Directorate requires the implementation of newly designed Queueing Management system in line with the following business and management objectives:

- a) To assist the Department to improve customer care service and satisfaction;
- b) To improve performance monitoring, control and reporting;
- c) To improve customer engagement;
- d) To assist the Department to provide valuable data and gather real-time data about the service waiting times, and customers;
- e) To allow better resource planning; and
- f) To track employee performance.

4.2 Project Objectives

The project is intended to provide the Department with a fully functional Queueing Management system that meets the management and departmental objectives within allocated period and within the allowable budget. The project has been initiated with a compilation of a comprehensive requirements specification (this document).

4.3 System Objectives

The proposed Queueing Management System has the following objectives:

- a) Enable the Department to manage the client queues;
- b) Support for all official languages
- c) Manage uniquely numbered tickets
- d) Monitor and measure queuing performance;
- e) Monitor the average waiting time per service type;
- f) Manage early warning when consumables reach low level marks
- g) Manage agent workstation and roles
- h) Manage ticket reprinting;
- i) Provision of real-time reporting

4. Organogram and Functions

5.1 Organisation structure

Figure 1 and 2 in this section depicts the organisation structure of Motor License Bureau (MLB) and Road Traffic Inspectorate (RTI).

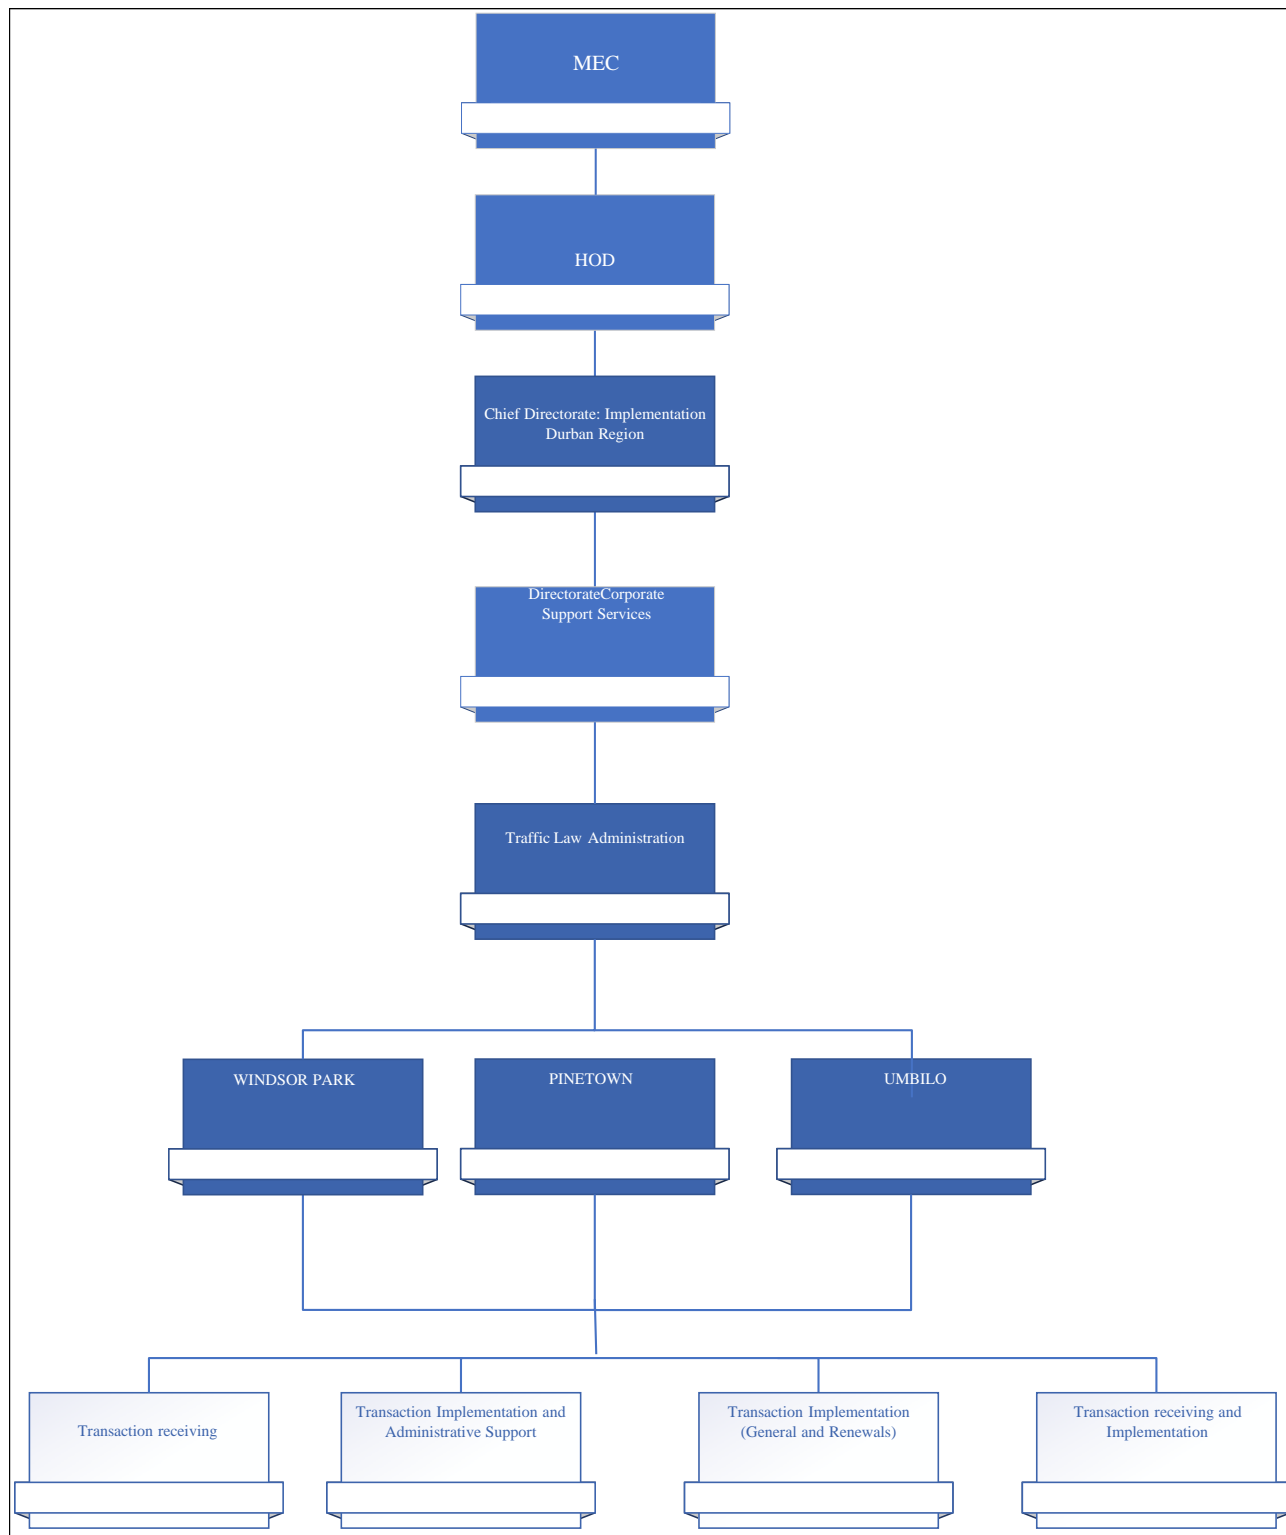

Figure 1: Motor License Bureau (MLB) Organisation Structure

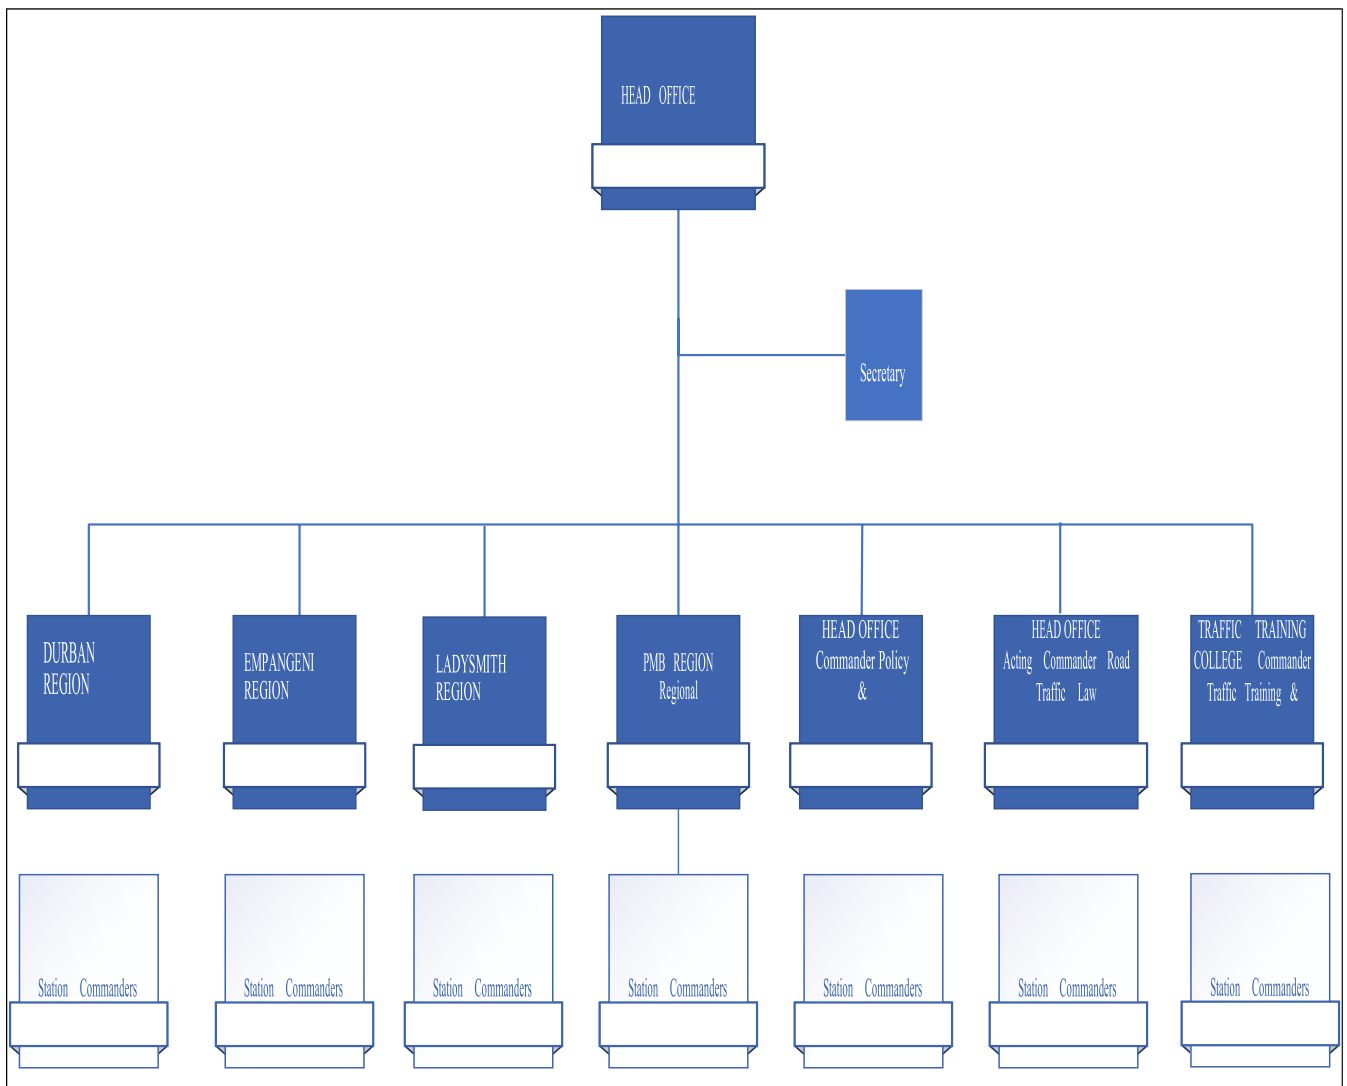

Figure 2: Road Traffic Inspectorate (RTI) Organisation Structure

5.2 Functions

The primary services provided by the Motor Licensing Bureau (MLB) Directorate are the following:

- a) Establishing a register of all motor vehicles through the registration of manufacturers of motor vehicles;
- b) Identifying and monitoring the source of motor vehicles through the registration of manufacturers, importers and builders of motor vehicles;
- c) Preventing the registration of motor vehicles, the acquisition of which has been unlawful (e.g. A motor vehicle that has been stolen);
- d) Identifying the title holder and owner of every registered motor vehicle;
- e) Recording full particulars in respect of every registered motor vehicle in order to positively identify every motor vehicle;
- f) Collecting annual motor vehicle licence fees and keeping the particulars of all registered motor vehicles up to date through the licensing of motor vehicles, thus keeping in line with road safety requirements;
- g) Ensuring that licence discs are issued only in respect of motor vehicles that have been certified as roadworthy and in respect of which the appropriate motor vehicle licence fees have been paid;
- h) Recovering of outstanding licence fees due on any of his/her other vehicles (linking debt);

- i) Maintaining a register of all vehicles suspended by law enforcement officials;
- j) Registration of Vehicle Testing Stations;
- k) Issue of Traffic Register Numbers to persons or body of person without acceptable identification;
- l) Registration and Issue of Trade Numbers;
- m) Issue of temporary and special permits; and
- n) Registration of Operators

The primary services provided by the Road Traffic Inspectorate (RTI) Directorate are the following:

- a) Issuance of learners' permits or provisional licences.
- b) Facilitates the theory and practical testing necessary for obtaining a driver's licence.
- c) Assist with the interview process of persons requesting the transfer of Family Island and foreign licences.
- d) Responsible for issuing and renewal of driver's licences.
- e) Facilitates registration, renewal and transfer of vehicles.
- f) Ensure that motor vehicles are inspected and deemed road worthy.
- g) Responsible for the management of public franchises in the country (grant, licensing, transfer, etc.).
- h) Responsible for collection, entering, cleaning, and processing of Road Traffic information.
- i) Upskills officers at the KZN -Traffic Training College by offering courses in Examiner for Driving Licences (EDL), Examiner of vehicles (EOV) and other short courses.

5.3 Problems/ Challenges/ Issues

The following are challenges encountered with the current system:

- a) The Department is unable to predict peak periods;
- b) Service Centres are Congested;
- c) The Department cannot track the waiting times;
- d) Queue jumping and back out; and
- e) The Department is unable to track the number and type of client of clients serviced.

5. Proposed System Scope

6.1 High level scope

The proposed system will cater for the following functions at a high level:

- a) Issuing of tickets;
- b) Monitor and measure queuing performance
- c) Monitor the average waiting time per service type
- d) Capability of ticket reprinting;
- e) Maintenance of ticket dispensing kiosk
- f) Manage virtual queueing
- g) Provide the capability to play entertainment and other relevant informative content on the clientfacing screens (TV type screens and media player)
- h) Manage the queue of service applicants so that they can access the service according to their needs
- i) Integrate with Licensing systems
- j) Generate reports

6.2 Assumptions

The following assumptions have been made:

- a) **The application will be hosted on KZN DOT server infrastructure in Pietermaritzburg.**

6.3 Constraints

The following constraints apply to the project:

- a) Budget; and
- b) Time.

6.4 Benefits

- a) Reduce wait times
- b) Improve service quality
- c) Increase customer loyalty
- d) Streamline communication
- e) Achieve staff satisfaction
- f) Improve staff efficiency
- g) Utilize customer data
- h) Reduce operational costs
- i) Increase revenue
- j) Prevents Queueing Clashing

6.5 Stakeholders

Relevant key stakeholders of the KZN DOT:

- a) Project Sponsor;
- b) Internal IT Directorate
- c) SITA
- d) Internal IT Directorate
- e) Motor Licensing Bureau (MLB)
- f) Road Traffic Inspectorate (RTI)

6.6 Integration

- a) Integration with eNatis system and
- b) Motor Licensing Bureau systems
- c) Road Traffic Inspectorate (RTI) systems

6.7 Project Type

This project will be based largely on the systems development life cycle applying the relevant approaches, methods and methodology. The Queueing Management System is a web-based system that interacts with database and also integrate with eNatis system for efficient and effective customer services. It is majorly used to manage interactions with the customers and control the queues in order to improve citizens servicedelivery.

6. Requirements

7.1 Functional requirements

Table 1: Functional requirements

REQ No.	Required Feature	Feature Value
REQ001	<ol style="list-style-type: none"> The KZNDOT requires a solution that places customers in a virtual waiting line or queue, where they don't have to physically wait in line to get a service. With a virtual queue management system, customers can wait remotely as they are not confined to any waiting spot. The solution must have a user-friendly interface which requires minimal training to use. 	<ol style="list-style-type: none"> Ease of Use Minimise the spread of diseases
REQ002	<ol style="list-style-type: none"> Ability to cater for activation/selection of different languages. 	<ol style="list-style-type: none"> Official languages
REQ003	<ol style="list-style-type: none"> The solution must manage ticket dispensing kiosk The user must be able to do the following <ol style="list-style-type: none"> Select preferable language Select service type Add cell phone number Add ID number (may pull the Citizen details from DHA and company registration systems) The dispensing kiosk must issue a ticket with the following details <ol style="list-style-type: none"> Ticket number e.g. PTN001, DBN001, UMB001 Transaction/ service type Date ticket issued Time ticket issued Barcode/QRS Code 	<ol style="list-style-type: none"> Issue tickets
	<ol style="list-style-type: none"> The system must issue a ticket number to the client according to their reason for query 	
REQ004	<ol style="list-style-type: none"> The solution should have the capability to play entertainment and other relevant informative content on the client facing screens (TV type screens and media player) while waiting. 	<ol style="list-style-type: none"> Client queueing
REQ005	<ol style="list-style-type: none"> The virtual queueing screen must display the queue of ticket number's for each of the available service agents. The virtual queueing screen displays the overall queue ticketing status The virtual queueing makes announcements for queue ticket numbers ready to be served. The ticket display screen displays promotional video along with details of waiting customers. 	<ol style="list-style-type: none"> Virtual queueing screen
REQ006	<ol style="list-style-type: none"> The solution must allow the client to reprint the ticket when there is a printer jam 	<ol style="list-style-type: none"> Ticket reprint
REQ007	<ol style="list-style-type: none"> The solution must provide early warnings when consumables reaches low level marks The solution must provide early warnings if there is a technical problem with the kiosk. 	<ol style="list-style-type: none"> Early Warnings
REQ008	<ol style="list-style-type: none"> The solution must send a notification on client's mobile device that they should proceed to the premises when their appointment time grows near or they approach the head of the queue. A Supervisor must receive a notification on escalations of tickets sitting unresolved. A Supervisor must receive all the escalated/ re-routed tickets from client service agent 	<ol style="list-style-type: none"> Notifications
REQ009	<ol style="list-style-type: none"> The client service agent must be able views all queries allocated or referred The client service agent must activate/ reactivate the desk to start receiving the client's The system must provide the ability to adjust service levels should acceptable waiting times are exceeded or should client service agents become idle 	<ol style="list-style-type: none"> Servicing Client
REQ010	<ol style="list-style-type: none"> The client service agent must pend the ticket if there is a no show from client The solution must allow the service agent to move the client position in the queue to the bottom of the queue and will be given another chance to be serviced The client service agent must activate/ reactivate the desk to start receiving the client's 	<ol style="list-style-type: none"> Pend ticket
REQ011	<ol style="list-style-type: none"> The solution must allow the client service agent to reroute the ticket, if unable to resolve the query or in case of a different query to what the ticket articulates. 	<ol style="list-style-type: none"> Re-route ticket

REQ012	1. The solution must enable the Supervisor to validate and re-allocate unresolved tickets to the relevant client service agent.	a) Re-allocation
REQ013	1. The solution must enable the Supervisor to manages the client service agent's availability roster for the day by allocating all the role clustered by service types.	a) Client service agent workstations and roles
REQ014	1. The solution must provide the Supervisor a dashboard view to monitor the queue. 2. The solution must monitor the average waiting time per service type 3. The solution must be able to start / stop the Queue management operation 4. The solution must enable the Supervisor to predict the workload and agent contingency required for servicing the expected load of clients	a) Queue Operation
REQ015	1. The solution must enable the client to capture feedback when the case has been resolved.	a) Client Feedback
REQ016	1. The solution must generate the reports	a) Queue management reporting
REQ017	1. The solution must be able to integrate with a backend system e.g. eNatis. Scan the ticket as an input to eNatis which is linked with customer's ID no from REQ004.	a) Integration

7. Detailed Business Processes

The process described in this section describe the detail of processes reflected in the High-Level diagram and identifies the respective business rules.

8.1 Manage Queueing system

This process deals with the management of ticket dispensing kiosk. The system issues a ticket number to the client according to their reason for query. The client then takes a seat in the waiting area and watch the client facing screen's which will display the queue of ticket numbers for each of the available service agents.

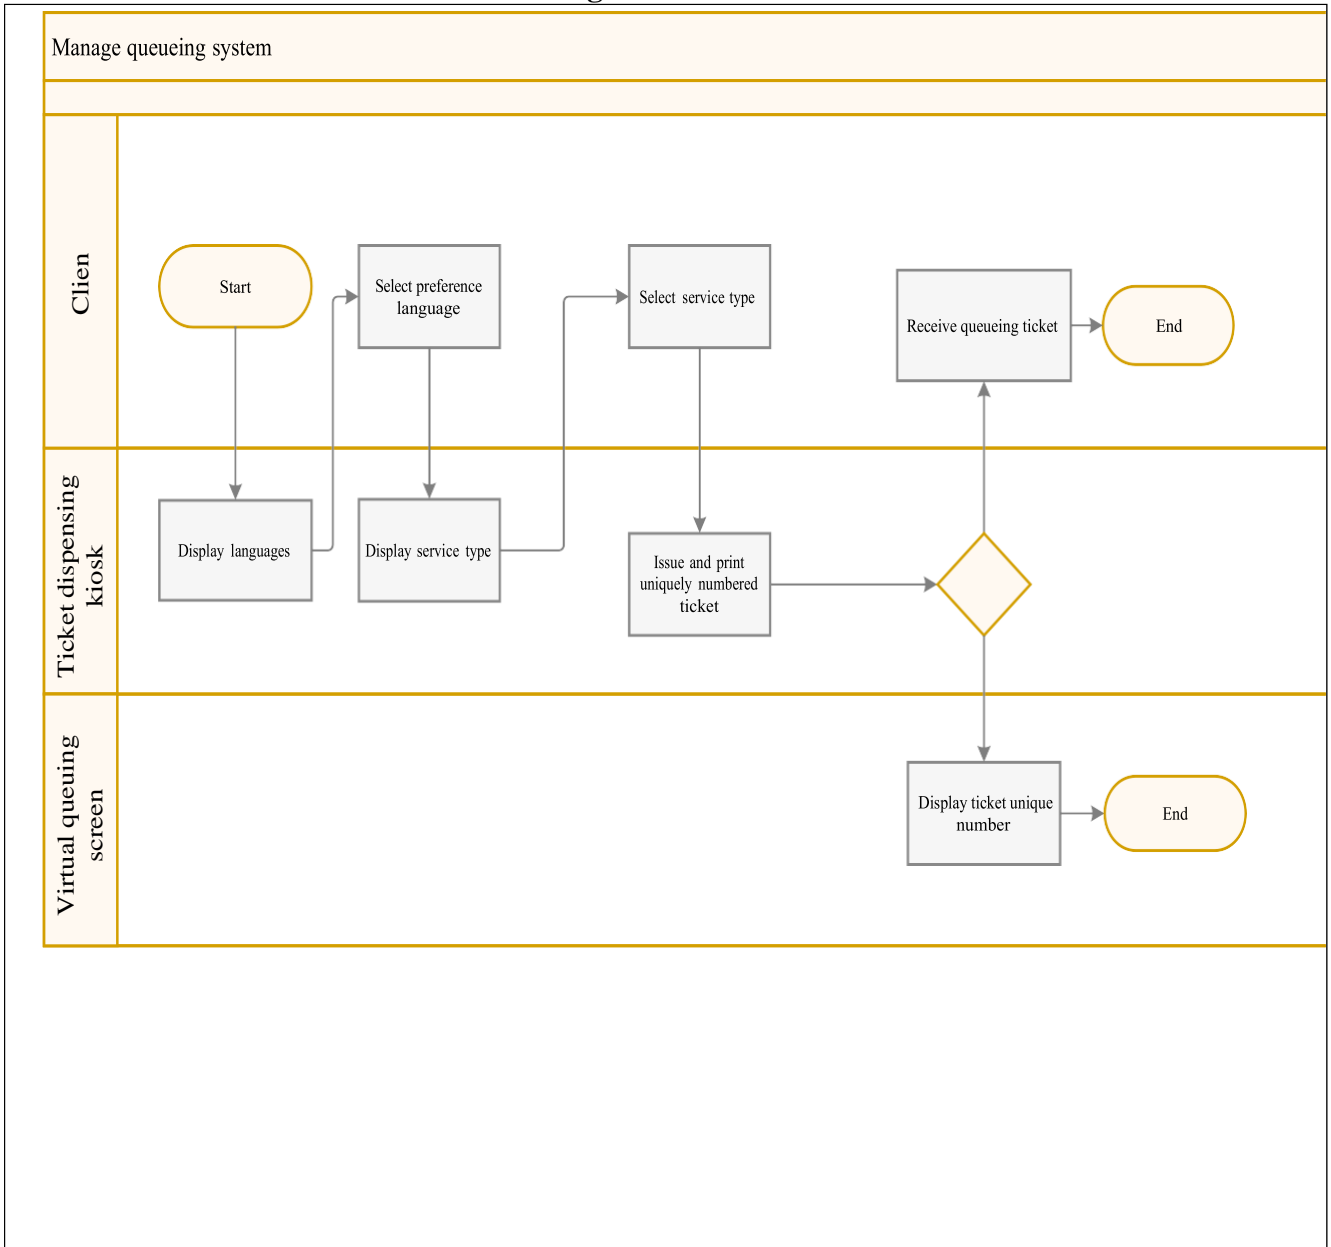

Figure 3: Manage queueing system

Table 2: Manage Queueing system

Process	Description
Manage Queueing system	<p>This process deals with the management of ticket dispensing kiosk. The system must issue a ticket number to the client according to their reason for query. The client must then take a seat in the waiting area and watch the client facing screen's which will display the queue of ticket numbers for each of the available service agents. Whenever it is the client's turn to be attended to, the client facing screens will direct the client to the appropriate service agent and the public address system will also announce the ticket number and the agent desk number.</p> <p>The system must support for all official languages, the system should have the capability to prompt the user to select a language of preference. The selected language will be used by the system for interaction with the client</p>

8.1.1 Use Cases Details

The use case diagram depicts how different types of users will interact with the proposed system to manage the queues.

8.1.1.1 Manage Queueing system Use Case

This process deals with the management of queue. The system must issue a ticket number to the client according to their reason for query. The client must then take a seat in the waiting area and watch the clientfacing screen's which will display the queue of ticket numbers for each of the available service agents. Whenever it is the client's turn to be attended to, the client facing screens will direct the client to the appropriate service agent and the public address system will also announce the ticket number and the agentdesk number.

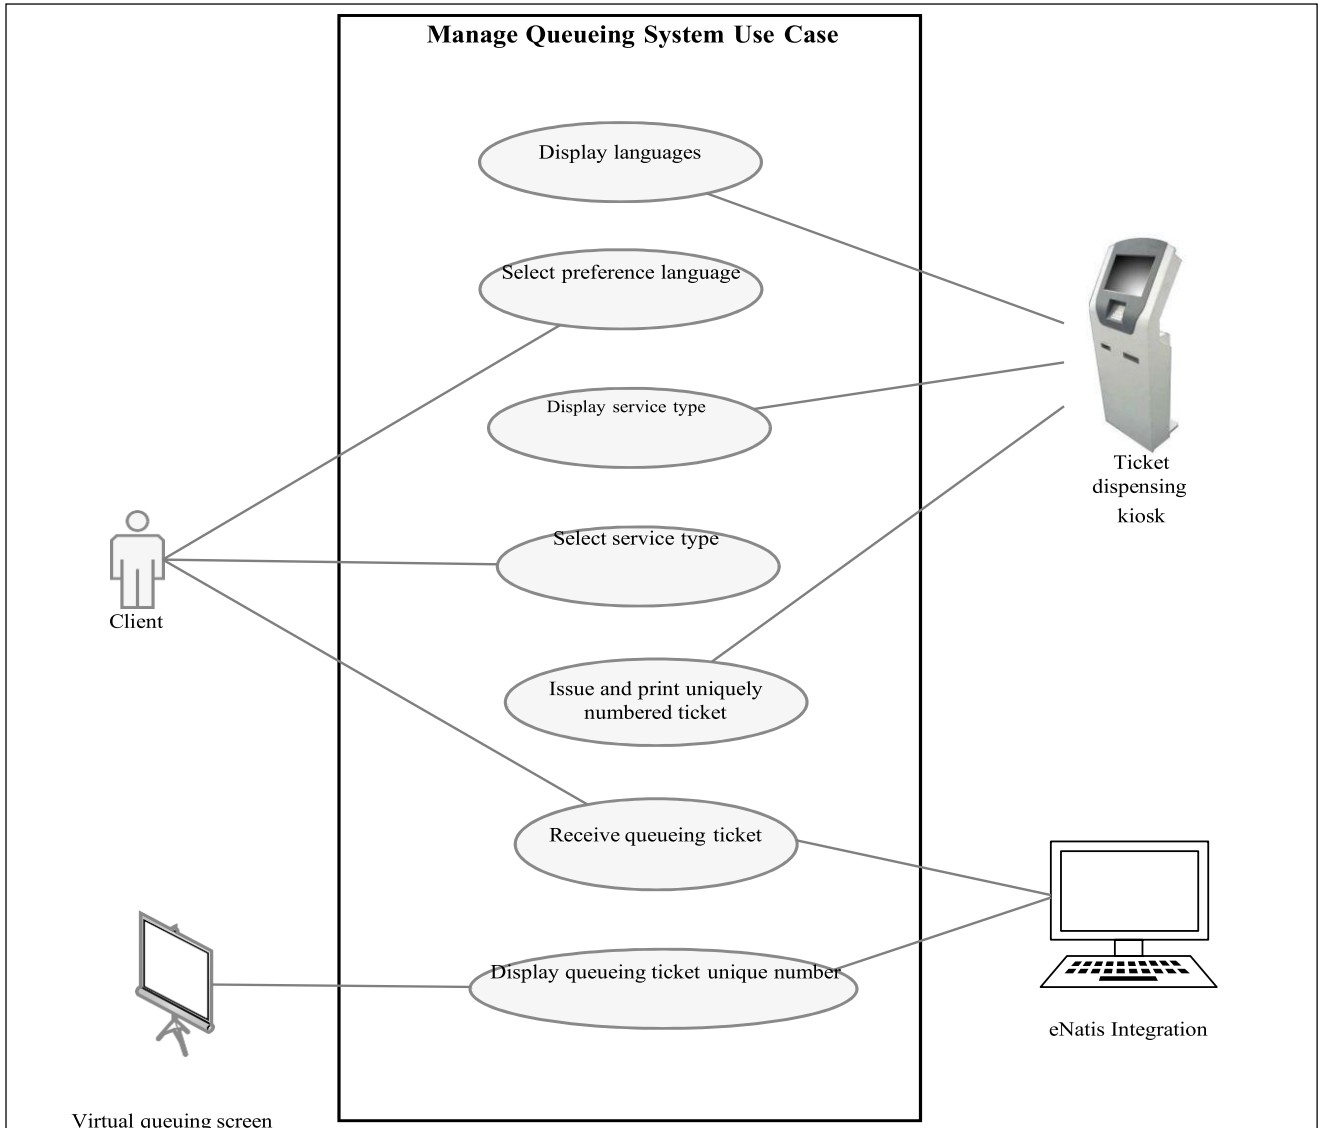

Figure 4: Manage queuing system Use Case

8.1.1.2 Display available languages

The client arrives and begins the transaction directly on the ticket dispensing kiosk. The dispensing kiosk displays all the languages available for selection.

Table 3: Display available languages

Use Case ID:	REQ001		
Use Case Name:	Display available languages		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	05 May 2021	Last Revision Date:	n/a
Actors:	The client		
Description:	The department offers clients the ability to join the queue using the Queueing Management system. The client arrives and begins the transaction directly on the ticket dispensing kiosk. A team member is assigned to assist clients using existing reception dispensing kiosk systems. The dispensing kiosk displays all the languages available for selection.		
Trigger:	Request Transport Services		
Pre-conditions:	Valid ID or other form of Identification		
Post-conditions:	Available languages have been displayed by the dispensing kiosk		
Normal Flow:	<ol style="list-style-type: none"> 1. The dispensing kiosk display all available languages. 2. The system displays the message "Please select preferred language" 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		

Frequency of Use:	Normal
Special Requirements:	Not applicable
Business Rule	Not applicable
Assumptions:	Not applicable
Notes and Issues:	Not applicable

8.1.1.3 Select preferred language

The dispensing kiosk displays all the languages available for selection.

Table 4: Select preferred language

Use Case ID:	REQ002		
Use Case Name:	Select preferred language		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	05 May 2021	Last Revision Date:	n/a
Actors:	The client		
Description:	The dispensing kiosk displays all the languages available for selection.		
Trigger:	Displayed languages		
Pre-conditions:	Valid inputs from (REQ002)		
Post-conditions:	The preferred language has been selected		
Normal Flow:	<ol style="list-style-type: none"> 1. The dispensing kiosk display all available languages. 2. The client selects the preferred language e.g. Zulu and English 3. Click "Submit" button. 4. The system displays the message "Please select the service type." 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		
Business Rule	Not applicable		
Assumptions:	Not applicable		
Notes and Issues:	Not applicable		

8.1.1.4 Select service type

Upon selection of the preferred language, the client chooses the service type and the query is then routed to the relevant service agent.

Table 5: Select service type

Use Case ID:	REQ003		
Use Case Name:	Select service type		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	05 May 2021	Last Revision Date:	n/a
Actors:	Client		
Description:	Upon selection of the preferred language, the client chooses the service type and the dispensing kiosk then allocate the query to the relevant service agent.		
Trigger:	Preferred selected language		
Pre-conditions:	Displayed languages		
Post-conditions:	The selected service type has been allocated to the relevant service agent		

Normal Flow:	<ol style="list-style-type: none">1. Enter ID No/Passport No2. Enter cell phone number (optional)3. The client selects the service type dropdown list <ol style="list-style-type: none">b) Registrations and Licenses<ol style="list-style-type: none">a) Deregistrationb) Renewalsc) Enquiriesd) Public Permite) Agent/ Dealers permitf) Dropping and collection of Dealer/ Agent filesg) Dealer paymentsh) PrDP/ Driving license card collectioni) Cashiers
---------------------	---

	<ul style="list-style-type: none"> j) PrDP/ Driving license card renewals k) Learners license testing l) Learners and driving license test bookings m) Driving license testing <ol style="list-style-type: none"> 1. Click "Submit" button.
Alternative Flows:	Not applicable.
Exceptions:	Not applicable.
Includes:	Not applicable.
Frequency of Use:	Normal
Special Requirements:	Not applicable
Business Rule	<ol style="list-style-type: none"> 1. The system must provide the client with an option to enter cell phone number in case they want to receive a notification on their mobile device when they are approaching the head of the queue. This minimizes the on-site wait time.
Assumptions:	Not applicable
Notes and Issues:	The ID/Passport/ No will enable eNatis to open the customer's file

8.1.1.5 Issue and print unique number ticket

Upon selection of the service type, the queueing ticket is issued with a unique ticket number.

Table 6: Issue and print unique number ticket

Use Case ID:	REQ004		
Use Case Name:	Issue and print unique number ticket		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	05 May 2021	Last Revision Date:	n/a
Actors:	Client		
Description:	Upon selection and allocation of the service type, the dispensing kiosk must issue a ticket based on the service or enquiry type that is selected by the client.		
Trigger:	The selected service type has been allocated to the relevant service agent		
Pre-conditions:	Preferred selected language		
Post-conditions:	The ticket number has been issued		
Normal Flow:	<ol style="list-style-type: none"> 1. The dispensing kiosk issue the queueing ticket with the following details <ul style="list-style-type: none"> a) Ticket number e.g. PTN001, DBN001, UMB001, B001, A001, C127 b) Transaction/ service type c) Date ticket issued d) Time ticket issued e) Barcode/QRS Code f) Ticket status e.g not resolved 2. Click "Print" button. 3. The system issues the queueing ticket number 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		
Business Rule	<ol style="list-style-type: none"> 1. The system must allow the client to reprint the ticket when there is a printer jam 2. The system must provide early warnings when consumables reaches low level marks 3. The system must provide early warning if there is a technical problem with the kiosk. 		
Assumptions:	Not applicable		
Notes and Issues:	The Code will be used to just scan the ticket on the counter by the customer which will validate the counter's received ticket number and issued ticket		

8.1.1.6 Receive queueing ticket

The customer receives the queueing ticket and waits at the waiting area where the Natis system is integrated with the queue management system.

Table 7: Receive queueing ticket

Use Case ID:	REQ005		
Use Case Name:	Receive queueing ticket		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	05 May 2021	Last Revision Date:	n/a
Actors:	Client		
Description:	After the customer has received a ticket for his selected service, he waits for his turn at the waiting area where the Natis system is integrated with the queue management system.		
Trigger:	The ticket number has been issued		
Pre-conditions:	The selected service type has been allocated to the relevant service agent		
Post-conditions:	The ticket number has been received by the client		
Normal Flow:	<ol style="list-style-type: none"> 1. The client receives a ticket for his selected service 2. The client waits for his/her turn at the waiting area. 3. The virtual queueing screen displays promotional video along with tickets details of waiting customers. 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		
Business Rule	None		
Assumptions:	Not applicable		
Notes and Issues:	Not applicable		

8.1.1.7 Display ticket unique number

The virtual queueing screen clearly displays the overall queue ticketing status and make announcements for queue ticket numbers ready to be served

Table 8: Display ticket unique number

Use Case ID:	REQ006		
Use Case Name:	Display ticket unique number		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	05 May 2021	Last Revision Date:	n/a
Actors:	Virtual queueing screen		
Description:	The virtual queueing screen clearly display the overall queue ticketing status and make announcements for queue ticket numbers ready to be served.		
Trigger:	The ticket number has been received by the client		
Pre-conditions:	The ticket number has been issued		
Post-conditions:	The ticket number has been displayed on the Virtual Queueing screen		
Normal Flow:	<ol style="list-style-type: none"> 1. The virtual queueing screen displays the following information <ol style="list-style-type: none"> a) Ticket number b) Ticket status c) Service type d) Waiting time 2. The virtual queueing makes announcements for queue ticket numbers ready to be served. 3. The ticket display screen displays promotional video along with details of waiting customers. 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		

Business Rule	1. When the client's appointment time grows near or they approach the head of the queue, the system must send a notification on their mobile device that they should proceed to the premises. This minimizes the on-site wait time.
Assumptions:	Not applicable
Notes and Issues:	While waiting to be serviced the client facing screens will play infotainment videos to make the wait for the client more pleasant.

8.2 Manage Client Services

The customer presents the issued ticket to the scanner or to the Agent and the system will be able to open the customer profile automatically on the eNatis or anytarget systems. As per Figure 3: Manage queueing system

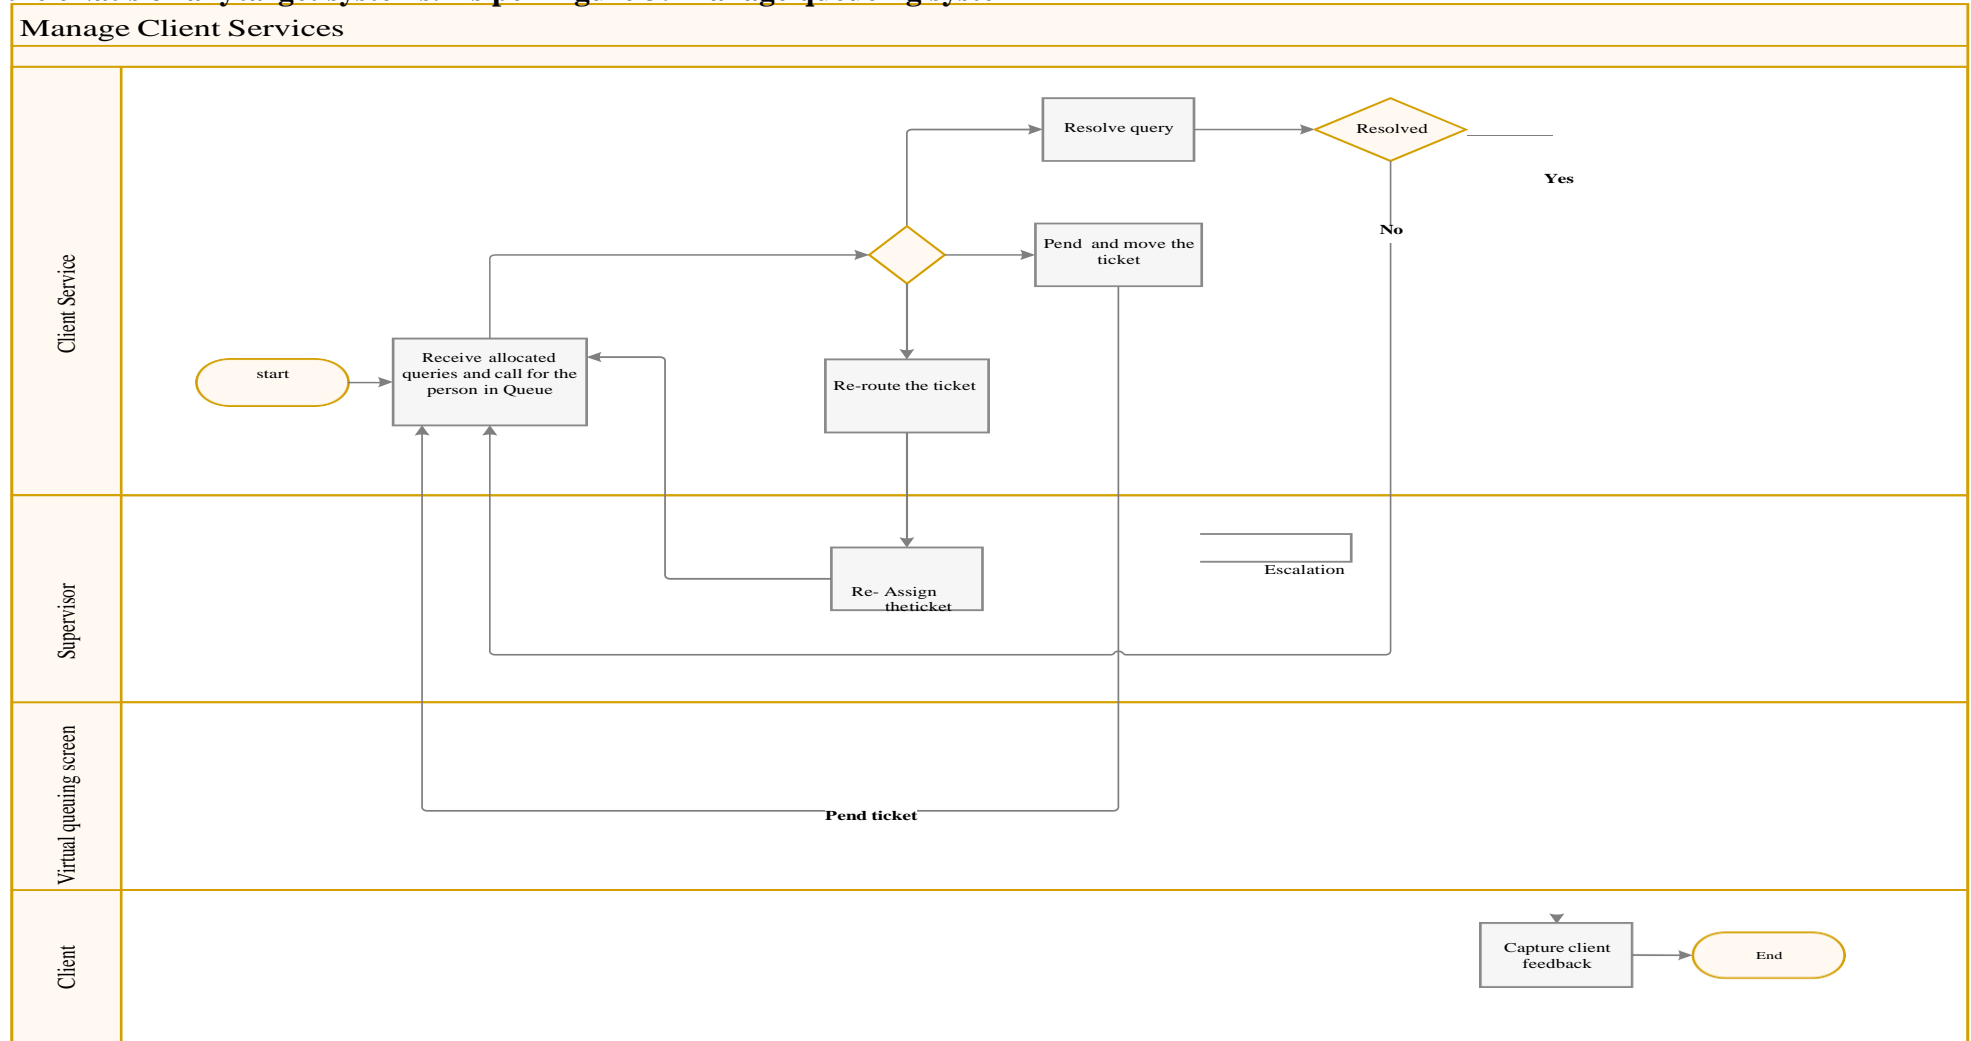

Figure 5:Manage client services

Table 9: Manage client services

Process	Description
<p>Manage client services</p>	<p>This process deals with all the queries received by the client service agent for service. The system must be able to match client's to client service agents that will provide the best service in terms of preferred language and selected service type skills, i.e. the client service agent's best knowledgeable about the service area requested by the client.</p> <p>The system must also provide the ability to adjust service levels should acceptable waiting times are exceeded or should client service agents become idle.</p>

8.2.1 Use Cases Details

The use case diagram depicts how different types of users will interact with the proposed system to manage the services requested by the clients.

8.2.1.1 Manage Client Services Use Case

This process deals with all the queries received by the client service agent for service. The system must be able to match client's to client service agents that will provide the best service in terms of preferred language and selected service type skills, i.e. the client service agent's best knowledgeable about the service area requested by the client.

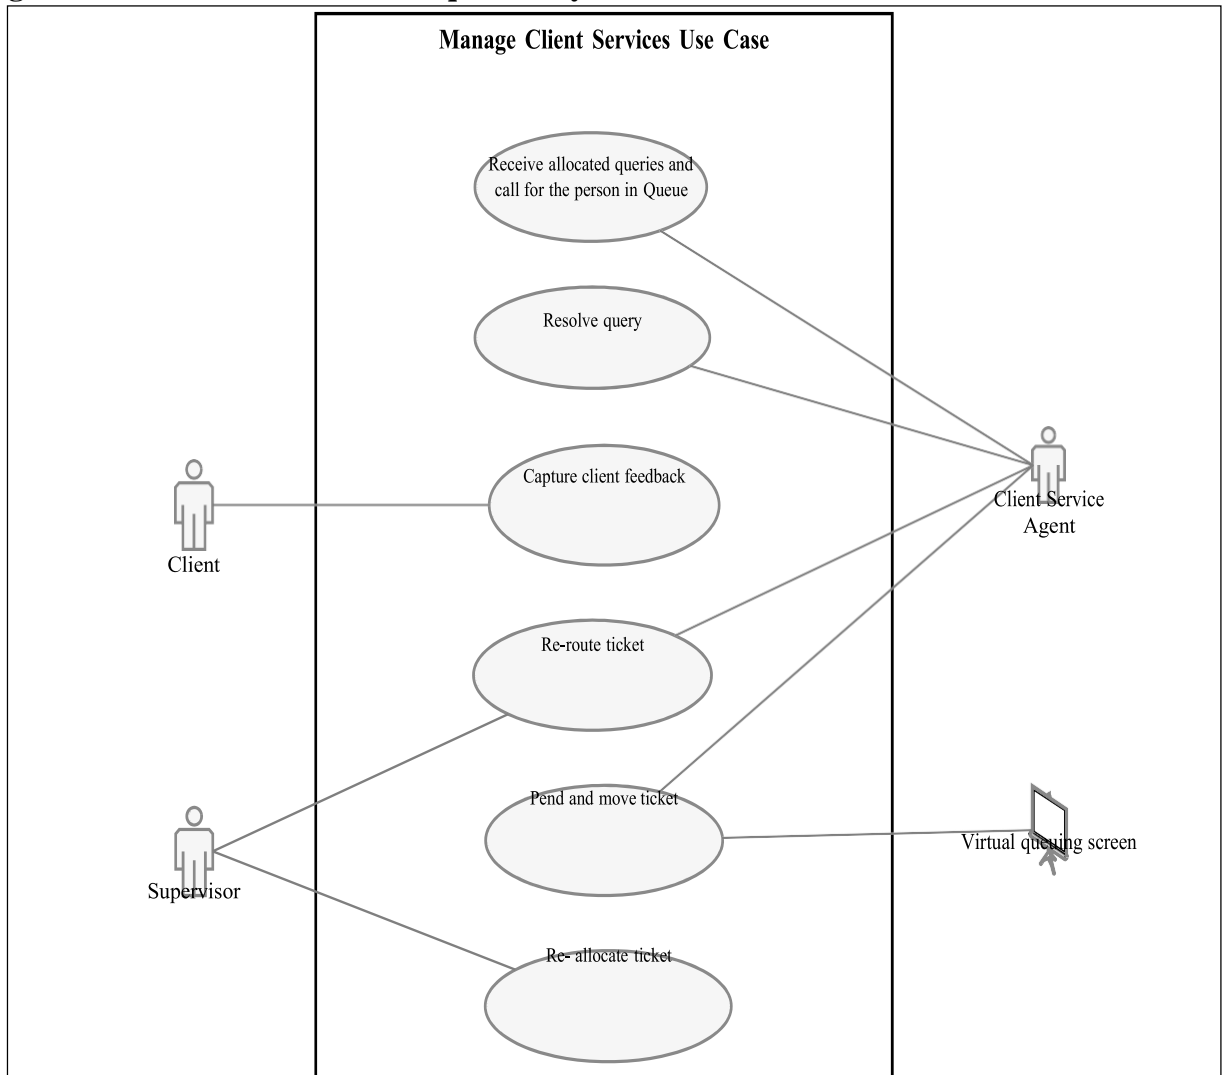

Figure 6: Manage client services

8.2.1.2 Receive allocated queries and call for the person in Queue

Upon receipt of all the queries allocated for service, the service agent starts the service time as he/she welcomes the client and stops the service time as the client's query is resolved, re-routed or escalated and the service agent has completed the wrap-up activities.

Table 10: Receive allocated queries and call for the person in Queue

Use Case ID:	REQ007		
Use Case Name:	Receive allocated queries and call for the person in Queue		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	11 May 2020	Last Revision Date:	n/a
Actors:	Client Service Agent		
Description:	The client service agent receives all the queries allocated for service. The service agent starts the service time as he/she welcomes the client and stops the service time as the client's query is resolved, re-routed or escalated and the service agent has completed the wrap-up activities.		
Trigger:	The ticket number has been displayed and called by Virtual Queueing		
Pre-conditions:	The client scan the Ticket at Agent's workstation		
Post-conditions:	The client in the queue has been called		
Normal Flow:	<ol style="list-style-type: none"> 1. The service agent views all queries allocated or referred 2. The client service agent selects the first ticket in the queue 3. The service agent calls the first ticket number in the queue 4. Click "Save" button. The information is saved. 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		
Business Rule	<ol style="list-style-type: none"> 1. The client service agent must pend the ticket if there is a no show from client. The client position in the queue will then be moved to the bottom of the queue and will be given another chance to be serviced. 2. The client service agent must activate/ reactivate the desk to start receiving the client's 		
Assumptions:	Not applicable		
Notes and Issues:	Due to transmissible and communicable diseases, the customer must be able to scan the ticket or smartphone bar code at the servicing Agent		

8.2.1.3 Resolve query

Upon selection of the first ticket in the queue, the client service desk calls the client to render the service.

Table 11: Resolve query

Use Case ID:	REQ008		
Use Case Name:	Resolve query		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	11 May 2020	Last Revision Date:	n/a
Actors:	Client Service Agent		
Description:	<p>The service agent starts the service time as he/she welcomes the client and stops the service time as the client's query is resolved, re-routed or pended and the service agent has completed the wrap-up activities</p> <p>Upon selection of the first ticket in the queue, the client service desk calls the client to render the service.</p>		
Trigger:	The client in the queue has been called		
Pre-conditions:	The ticket number has been displayed on the Virtual Queueing screen		
Post-conditions:	The query/ ticket has been resolved, re-routed or pended		

Normal Flow:	<ol style="list-style-type: none"> 1. The service agent calls the first ticket number in the queue 2. Select service type 3. Enter date ticket resolved/ re-routed/not resolved/ pended 4. Select ticket status dropdown list <ol style="list-style-type: none"> a) Resolved
	<ol style="list-style-type: none"> b) Not resolved c) Re-routed d) Pending 5. Enter comments 6. Click "Save" button. The information is saved.
Alternative Flows:	Not applicable.
Exceptions:	Not applicable.
Includes:	Not applicable.
Frequency of Use:	Normal
Special Requirements:	Not applicable
Business Rule	<ol style="list-style-type: none"> 1. The client service agent must pend the ticket if there is a no show from client. The client position in the queue will then be moved to the bottom of the queue and will be given another chance to be serviced. 2. The system must allow the client must capture feedback once the ticket has been resolved.
Assumptions:	Not applicable
Notes and Issues:	Not applicable

8.2.1.4 Capture client feedback

The service agent requests the client to rate the service by capturing feedback.

Table 12: Capture client feedback

Use Case ID:	REQ009

Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	11 May 2020	Last Revision Date:	n/a
Actors:	Client Service Agent		
Description:	The service agent stops the service time as the client's query is resolved and request the client to rate the service by capturing feedback.		
Trigger:	The ticket has been resolved		
Pre-conditions:	The client in the queue has been called		
Post-conditions:	The client feedback has been captured		
Normal Flow:	<ol style="list-style-type: none"> 1. The client captures the following details; <ol style="list-style-type: none"> a) System must automatically display ticket number b) System must automatically display service type c) System must automatically display the waiting time d) How was the service <ol style="list-style-type: none"> i. good ii. bad e) Enter date f) Enter suggestions 2. Click "Save" button. The information is saved and a system notification is sent to relevant Supervisor. 3. The system displays the message "The client feedback has been submitted successfully." 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		
Business Rule	The system must be able to calculate the waiting time		
Assumptions:	Not applicable		
Notes and Issues:	Not applicable		

8.2.1.5 Pend and move the ticket

The service agent pends the ticket when the client doesn't show up, the ticket will be moved to the bottom of the queue and will be given another chance to be serviced.

Table 13: Pend and move the ticket

Use Case ID:	REQ010		
Use Case Name:	Pend and move the ticket		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	11 May 2020	Last Revision Date:	n/a
Actors:	Client Service Agent		
Description:	Upon selection of the first ticket in the queue, the client service desk calls the client to render the service, if the client doesn't show up then the ticket will be moved to the bottom of the queue and will be given another chance to be serviced.		
Trigger:	The client in the queue has been called		
Pre-conditions:	The ticket number has been displayed on the Virtual Queueing screen		
Post-conditions:	The query has been pended		
Normal Flow:	<ol style="list-style-type: none"> 1. The service agent calls the first ticket number in the queue, if the client does not show up then 2. Select service type 3. Enter date 4. Select ticket status dropdown list <ol style="list-style-type: none"> a) Resolved b) Not resolved c) Re-routed d) Pending 5. Enter comments 6. Click "Save" button. The information is saved. 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		
Business Rule	The client service agent must pend the ticket if there is a no show from client. The client position in the queue will then be moved to the bottom of the queue and will be given another chance to be serviced.		
Assumptions:	Not applicable		
Notes and Issues:	Not applicable		

8.2.1.6 Re-route the ticket

The client service agent re-routes the unresolved ticket or the query that is different to what the ticket articulates.

Table 14: Re-route the ticket

Use Case ID:	REQ011		
Use Case Name:	Re-route the ticket		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	11 May 2020	Last Revision Date:	n/a
Actors:	Client Service Agent		
Description:	The client service agent re-routes the ticket to the supervisor if he/she is unable to resolve the query or in case of a different query to what the ticket articulates.		
Trigger:	The client in the queue has been called		
Pre-conditions:	The ticket number has been displayed on the Virtual Queueing screen		
Post-conditions:	The ticket has been rerouted		

Normal Flow:	<ol style="list-style-type: none"> 1. The client service agent re-routes the ticket by entering the following; <ol style="list-style-type: none"> a) Select supervisor name b) Enter date ticket re-routed c) Select ticket status dropdown list
	<ol style="list-style-type: none"> <ol style="list-style-type: none"> i. Resolved ii. Not resolved iii. Re-routed iv. Pending d) Enter comments 2. Click "Submit" button. The information is saved and the system notification is sent to relevant Supervisor. 3. The system displays the message "The ticket has been re-routed successfully."
Alternative Flows:	Not applicable.
Exceptions:	Not applicable.
Includes:	Not applicable.
Frequency of Use:	Normal
Special Requirements:	Not applicable
Business Rule	<ol style="list-style-type: none"> 1. A Supervisor must receive a notification on escalations of tickets sitting unresolved 2. A Supervisor must receive all the escalated/ re-routed tickets from client service agent
Assumptions:	Not applicable
Notes and Issues:	Not applicable

8.2.1.7 Re-allocate the ticket

The Supervisor receives a system notification of an unresolved or re-routed ticket from the client service agent. The Supervisor validates and re-allocate the ticket to the relevant client service agent.

Table 15: Re-allocate the ticket

Use Case ID:	REQ012		
Use Case Name:	Re-allocate the ticket		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	11 May 2020	Last Revision Date:	n/a
Actors:	Supervisor		
Description:	The Supervisor receives a system notification of an unresolved or re-routed ticket from the client service agent. The Supervisor validates and re-allocate the ticket to the relevant client service agent.		
Trigger:	The rerouted ticket		
Pre-conditions:	The client in the queue has been called		
Post-conditions:	The ticket has been re-allocated		
Normal Flow:	<ol style="list-style-type: none"> 1. The Supervisor receives an unresolved ticket re-routed by a client service agent. 2. The Supervisor validate the tickets 3. The Supervisor re-allocate the ticket by entering the following; <ol style="list-style-type: none"> a) Select service type b) Select client service agent c) Enter date assigned d) Enter comments 4. Click "Submit" button. The information is saved and the system notification is sent to relevant client service agent. 5. The system displays the message "The ticket has been re-allocated successfully." 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		

Business Rule	1. A Supervisor must receive a notification on escalations of tickets sitting unresolved 2. A Supervisor must receive all the escalated/ re-routed tickets from client service agent
Assumptions:	Not applicable
Notes and Issues:	Not applicable

8.3 Manage Client Services Agent Roles

The Supervisor manages the client service agent's availability roster for the day by allocating all the role clustered by service types.

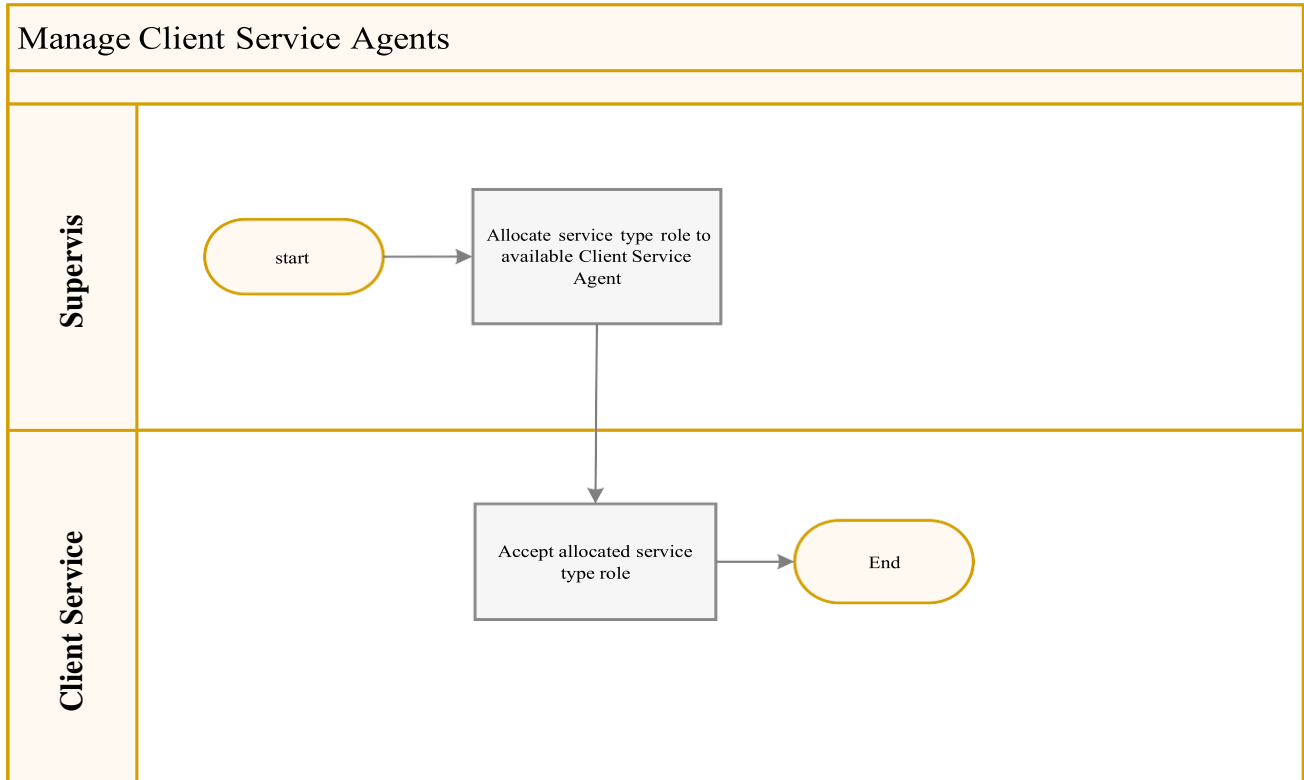

Figure 7: Manage Client Service Agents roles

Table 16: Manage Client Service Agents roles

Process	Description
Client Service Agents roles	The Supervisor communicates with the client service agent through the Queue management application, provide support and assistance as required. The Supervisor manages the client service agent’s availability roster for the day by allocating all the role clustered by service types.

8.3.1 Use Cases Details

The use case diagram depicts how the Supervisor will interact with the MLB application system to manage the client service agents roster for the day by allocating the roles.

8.3.1.1 Manage Client Service Agent Roles Use Case

The Supervisor communicates with the client service agent through the Queue management application, provide support and assistance as required. The Supervisor manages the client service agent’s availability roster for the day by allocating all the role clustered by service types.

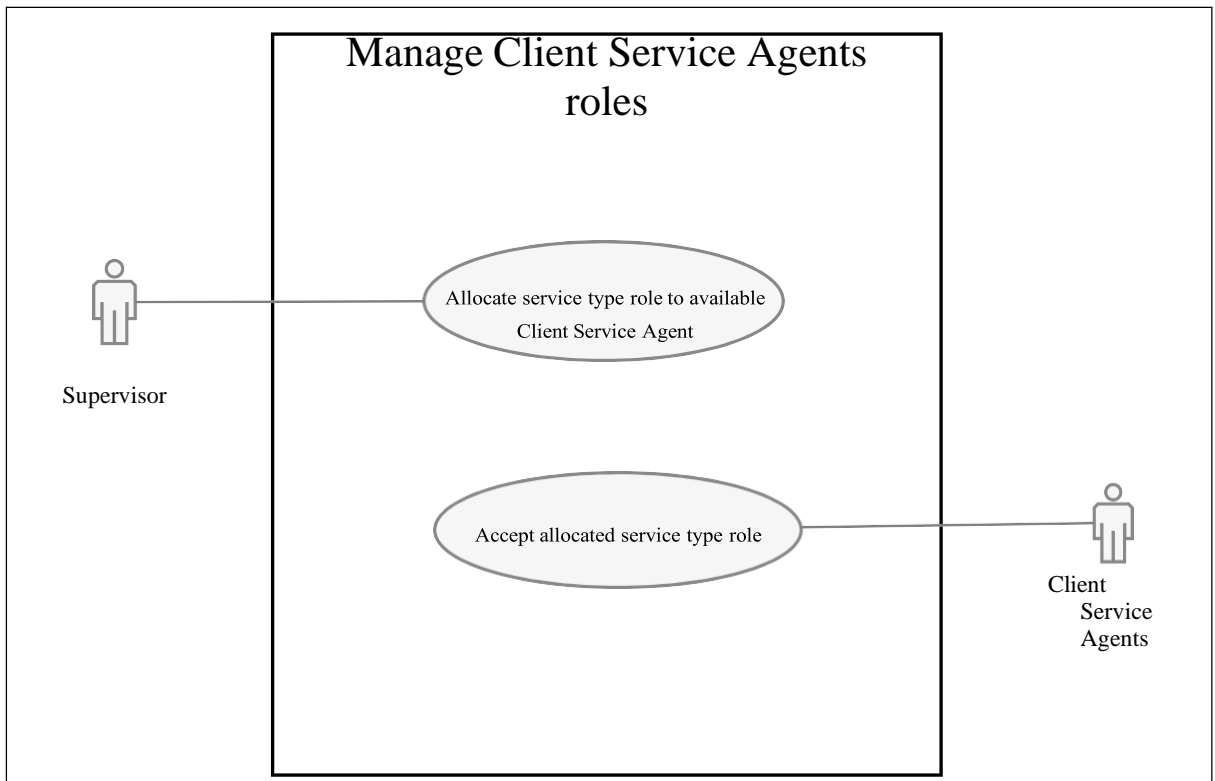

Figure 8: Manage Client Service Agents Roles

8.3.1.2 Allocate service type role to available Client Service Agent

The Supervisor manages the client service agent’s availability roster for the day by allocating all the role clustered by service types.

Table 17: Allocate service type role to available Client Service Agent

Use Case ID:	REQ013		
Use Case Name:	Allocate service type role to available Client Service Agent		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	11 May 2020	Last Revision Date:	n/a
Actors:	Supervisor		

Description:	The Supervisor communicates with the client service agent through the Queue management application, provide support and assistance as required. The Supervisor manages the client service agent's availability roster for the day by allocating all the role clustered by service types.
Trigger:	The workload and client service agent required for servicing the expected load of clients
Pre-conditions:	The request for service
Post-conditions:	The service type role has been successfully allocated to the client service agent
Normal Flow:	<ol style="list-style-type: none"> 1. View available client service agent 2. Select service type 3. Select the client service agent 4. Enter date allocated 5. Enter time allocated 6. Click "Allocate" button. The information is saved and a system notification is sent to client service agent. 7. The system displays the message "Role has been allocated successfully."
Alternative Flows:	Not applicable.
Exceptions:	Not applicable.
Includes:	Not applicable.
Frequency of Use:	Normal
Special Requirements:	Not applicable
Business Rule	<ol style="list-style-type: none"> 1. The system must provide the Supervisor a dashboard view to monitor the queue. 2. The system must monitor the average waiting time per service type 3. The system must be able to start / stop the Queue management operation
Assumptions:	Not applicable
Notes and Issues:	Not applicable

8.3.1.3 Accept allocated service type role

Upon allocation of the service type role by the Supervisor, the client service agent views and accept the task.

Table 18: Accept allocated service type role

Use Case ID:	REQ014		
Use Case Name:	Accept allocated service type role		
Created By:	Nonhle Gwala	Last Updated By:	Nonhle Gwala
Date Created:	11 May 2020	Last Revision Date:	n/a
Actors:	Client Service Agent		
Description:	Upon allocation of the service type role by the Supervisor, the client service agent views and accept the task.		
Trigger:	The service type role has been successfully allocated to the client service agent		
Pre-conditions:	The workload and client service agent required for servicing the expected load of clients		
Post-conditions:	The allocated responsibility has been accepted		
Normal Flow:	<ol style="list-style-type: none"> 1. The client service agent receives the allocated service type 2. Select accept Yes/ No 3. Enter date 4. Enter comments 5. Click "Submit" button. The information is saved and e-mail notification is sent to relevant Supervisor 6. The system displays the message "Service type role has been accepted." 		
Alternative Flows:	Not applicable.		
Exceptions:	Not applicable.		
Includes:	Not applicable.		
Frequency of Use:	Normal		
Special Requirements:	Not applicable		
Business Rule	Not applicable		
Assumptions:	Not applicable		
Notes and Issues:	Not applicable		

8. Data Requirements: Class Diagrams

The class diagrams clearly map out the structure of the queueing management system by modelling its classes, attributes, operations, and relationships between objects.

9. Data Dictionary

The following table represents the data dictionary for the Queueing Management System.

Table 19: Data Dictionary

Field Name	Field Description	Type	Size	Edit Mask	Editing / Validation
TicketNumber	Ticket Number	Numeric	13	9(13)	Numeric, Unique
TicketDate	Ticket Date	Date	10	DD/MM/YYYY	Must contain Values.
TicketTime	Ticket Time	Numeric	13	9(13)	Numeric, Unique
TicketServicetype	Ticket Service type	Alphanumeric	50	A(50)	Must contain Values.
TicketID	Ticket ID	Numeric	13	9(13)	Numeric, Unique
FeedbackRemarks	Feedback Remarks	Alphanumeric	50	A(50)	Must contain Values.
FeedbackDate	Feedback Date	Date	10	DD/MM/YYYY	Must contain Values.
FeedbackMinutesWaited	Feedback Minutes Waited	Numeric	13	9(13)	Numeric, Unique
FeedbackServiceRating	Feedback Service Rating	Alphanumeric	50	A(50)	Must contain Values.
ClientServiceAgentID	Client Service Agent ID	Numeric	13	9(13)	Numeric, Unique
ClientServiceAgentName	Client Service Agent Name	Alphanumeric	50	A(50)	Must contain Values.
ClientAgentAllocationID	Client Agent Allocation ID	Numeric	13	9(13)	Numeric, Unique
ClientAgentServiceName	Client Agent Service Name	Alphanumeric	50	A(50)	Must contain Values.
ClientAgentServicetype	Client Agent Service type	Alphanumeric	50	A(50)	Must contain Values.
ClientAgentDateAllocated	Client Agent Date Allocated	Alphanumeric	50	A(50)	Must contain Values.
ClientAgentTimeAllocated	Client Agent Time Allocated	Numeric	13	9(13)	Numeric, Unique
Service Type ID	Service Type ID	Numeric	13	9(13)	Numeric, Unique
Service type name	Service type name	Alphanumeric	50	A(50)	Must contain Values.
Language id	Language id	Numeric	13	9(13)	Numeric, Unique
Language name	Language name	Alphanumeric	50	A(50)	Must contain Values.
TicketStatusID	Ticket Status ID	Numeric	13	9(13)	Numeric, Unique
TicketStatus	Ticket Status	Alphanumeric	50	A(50)	Must contain Values.

10.1 Non-functional requirements

Table 20 represents the non-functional requirements for the Consumer Case Management System (e-Complaints):

Table 20: Non-functional requirements

NFR No.	Requirement	Description
NFR001	Security	Access to the solution must be restricted to authorised clients agent/ other users
NFR002	Authentication of users	There must be a secure login for client agents/ other users
NFR003	An online solution to provide the capacity to handle the estimated transaction volumes	The system must have the capacity to handle the volume of transactions Attributes: a) Network capacity b) Processing capacity c) Data Storage capacity
NFR004	Scalability	The solution should be able to handle an increase in the number of transactions and new functionality.
NFR005	Data integrity must be maintained to ensure that only valid and quality data is stored in the database	Ensure that data is of quality in terms of validity, accuracy and usability
NFR006	Fit for purpose	The solution must ensure that the business and technical requirements are clearly understood and implemented to enable the KZN DOT service delivery Attributes: a) Compliance to requirements b) Compliance to relevant and applicable standards
NFR007	Audit Trail	Provide an audit trail facility to track transaction history thus enabling history tracking of transactions as well as dispute resolution Attributes: a) Transaction history recording b) Record user actions
NFR008	Functional support	To be documented in a service level agreement (SLA) during project implementation.
NFR009	Hosting services	To be documented in a service level agreement (SLA) during project implementation.
NFR010	Application Development services	Comply with the Policy on Free and Open Source Software (FOSS) use for South African Government.
NFR011	24/7 availability of the solution	The solution must be available for both the client and departmental officials anytime

10.2 Service Level Agreement Requirements

The following requirements are to be incorporated in the Service Level Agreement (SLA) between SITA and Department of Transport after the implementation of the chosen solution:

Table 21: SLA requirements

SLAR No.	Requirement	Description
SLR001	Hosting	The solution must be hosted in South Africa on a private cloud.
SLR002	Maintenance	SITA must maintain the implemented solution, thus SITA must acquire the necessary skilled resources in time for maintenance and support.
SLR003	Technical support	The solution with support services will be required in line with Department's functioning (24 hours per day, 7 days per week, 52 weeks per year).

10.3 Reporting requirements

Table 22: Reporting requirements

RR No.	Required Feature	Reason
REP001	<ol style="list-style-type: none"> 1. A report that list the users of the system is required: <ol style="list-style-type: none"> a) User Name b) Last logged in to the system 	Control user access to the system
REP002	<ol style="list-style-type: none"> 1. Dashboard is required: <ol style="list-style-type: none"> a) Number of active users 2. The solution must generate the following reports; <ol style="list-style-type: none"> a) Average waiting time per service type. b) Average service time <ol style="list-style-type: none"> i. Per Service type. ii. Per Service Desk. iii. Per Client c) Average ticket issuing load. d) Report delivery scheduler. e) Real-time reporting on the longest wait time. f) Client feedback report per service type per client service agent g) Dashboard that must be available to the branch manager and the head office managers (to have a consolidated dashboard for all the regional offices with drill down capability) <ol style="list-style-type: none"> i. Number of clients serviced per walk-in centre/region ii. Type of clients serviced and number per walk-in centre/region iii. Average waiting times per walk-in centre/region iv. Average service times per walk-in centre/region v. Number of abandoned tickets per walk-in centre/region h) Number of cases per query type, to identify a root cause for seasonal influx in order to react proactively in future 	Manage real time reporting

10.4 Operational and Implementation Requirements

The following operational requirements must be kept in mind when choosing an appropriate solution:

Table 23: Operational and Implementational Requirements

OIR No.	Requirement	Description
OR001	Operating hours	The solution will have to be operational 24 hours per day, 7 days per week, 52 weeks per year in order to suit the possible operating hours of the Department.
OR002	Technical Support	Technical support service must be available to the client 24 hours per day, 7 days per week, 52 weeks per year in order to suit the possible operating hours of the Department.
OR003	Organisational Change Management	During implementation of the solution, SITA must make provision for organisational change management as well as end-user training across the Department.
OR004	Vulnerabilities	Vulnerability assessments should be automated for the SITA platforms only and such SITA any identified vulnerabilities should be fixed.

OR005	Security	The solution must be securely accessible anywhere in the around. Customized algorithm installed on VPN devices and all data flow encrypted as recommended by SSA. All activities should be logged and security incidents and breaches should be identified, reported and resolved. SITA must adhere to all Security Policies on the Government Network, i.e. SITA Next Generation Network (NGN) to enable all network security firewalls to support the Video Conferencing Solution. Other security and compliance requirements are stated below: a) Single sign-on capability. The systems should be able to integrate with Active Directory for single sign-on. b) Encryption – All communication and data should be encrypted at rest and in transit. End-to-end encryption is required.
OR006	Implementation Services (Overall)	Package the product for deployment. Deployment of the product into the production environment.
OR007	Business Process Management	The Department will be responsible for Business Process management.
OIR No.	Requirement	Description
OR009	Data connection	A stable data connection is recommended however existing application bandwidth must also be considered which SITA can assess and advise
OR010	Training	Officials must be trained on how to use the system and they must be supplied with user manuals.
OR001	Operating hours	The solution will have to be operational 24 hours per day, 7 days per week, 52 weeks per year in order to suit the possible operating hours of the Department.
OR002	Technical Support	Technical support service must be available to the client 24 hours per day, 7 days per week, 52 weeks per year in order to suit the possible operating hours of the Department.
OR003	Organisational Change Management	During implementation of the solution, SITA must make provision for organisational change management as well as end-user training across the Department.
OR004	Vulnerabilities	Vulnerability assessments should be automated for the SITA platforms only and such SITA any identified vulnerabilities should be fixed.

10.5 Integration/Interface requirements

The following table summarises all the interfaces required for the proposed solution:

Table 24: Interface requirements

Integration	Data Owner	Description
Queueing Management system	DOT	The solution must have an add-on or integration with eNatis system as this will enable the Department to track the client's journey through the business, which is good for improving customer experience.

10. Implementation and Functional Application Support Requirements

The below information is required in order to get a clear understanding of the client's requirements. It is aimed at making sure that all areas are covered and that the correct questions are answered during client engagements.

The following categories are included for implementation:

- a) Solution Implementation and Migration Services
 - i. Organisational Change Management
 - ii. Data Management
 - iii. Business Process Management
 - iv. Technology Management
- b) Functional Application Support (6 weeks post go-live)
- c) Application Training.

11.1 Solution Implementation and Migration Services

Implementation Services is responsible for the implementation of new systems, applications and products into the client environment.

Table 25: Solution Implementation and Migration Requirements

SIMR No.	Requirement	Description	Response
IMP001	Organisational Change Management	SITA provides change management advice and support to the client, including internal stakeholder management. However,	Comment:
		the execution of the change management functions is usually performed by the client's structures, in consultation with SITA. The following deliverables are available. Is this required in your organisation, should you require the service:	
		a) Environmental assessment	Yes / No
		b) Change Management approach and plan	Yes / No
		c) Communication plan	Yes / No
		d) Stakeholder matrix	Yes / No
		e) Change impact assessment and report	Yes / No
		f) Pre-Go live readiness assessment and checklist	Yes / No
		Will any jobs within the client organisation be affected or changed by this implementation?	Yes / No
		Please indicate the number of users that will be impacted.	
Where are the users who are impacted by the implementation situated?			
Please provide the number of offices and the location of these offices.			
IMP002	Data Management	Please confirm the following data requirements for the implementation:	
		Do you have any legacy system data that must be imported into the new system? If "Yes", please list the systems:	Yes / No
		Are there any additional data required to ensure that the system is operational? If "Yes", please list the systems:	Yes / No
		Are there any interfaces required with other systems? If "Yes", please list the systems:	Yes / No
		Is there a requirement for any new master data to be defined / imported? If "Yes", please list the data such as categories, codes, structures, workflow, etc.	Yes/ No
IMP002	Data Management	Please confirm the following data requirements for the implementation:	
		Do you have any legacy system data that must be imported into the new system? If "Yes", please list the systems:	Yes / No
		Are there any additional data required to ensure that the system is operational? If "Yes", please list the systems:	Yes / No
		Are there any interfaces required with other systems? If "Yes", please list the systems:	Yes / No
		Is there a requirement for any new master data to be defined / imported? If "Yes", please list the data such as categories, codes, structures, workflow, etc.	Yes/ No
IMP003	Business Process Management	To what extent will the current business processes and workflows within your organisation be impacted?	No impact Small impact Medium impact Large impact

		Is a mapping between 'as-is' and 'to be' required?	Yes / No
		Will it be necessary to train the employees on the new business process?	Yes / No
		Do you require an assessment on any legislative impacts that may result due to the implementation?	Yes / No
IMP004	Technology Management	Will the implementation impact on other client technology components for the client, e.g. servers, desktops, network?	Yes / No
		If "Yes", do you need SITA to do a Technology Readiness Assessment?	Yes / No
		If "Yes", please list the affected sites and the expected number of users per site.	
IMP005	Support Requirements	Please confirm if you need stabilisation support (mostly on-site support to users as part of the initial implementation project, to iron out any final problems and to support users in the initial usage of the system, before the implementation project comes to an end (usually for a short period of about two months).	Yes / No

11.2 Functional Application Support

Functional Application Support (FAS) is the support rendered to clients after the implementation of the solution. The support is rendered on calls logged on the SITA call logging system, and is managed via an SLA between SITA and the client.

Table 26: Functional Application Support Requirements

FASR No.	Requirement	Description	Response
FASR001	Post Implementation Functional Application (FAS) Support	Will FAS be required post-implementation? If "Yes", please indicate the following: (a) If support is required across multiple provinces/locations, please list the locations:	Yes / No
FASR002	Provincial Support	If support is required at the provinces and will each province be responsible for their own support costs or will it be a covered on a National SLA? Please indicate the estimated number of system users per location that must be supported	
FASR003	Standby and Overtime Hours	Are there any support services required for after working hours? Note working hours are between 08h00 to 16h30, after hours is any work done after 16h30 Any support beyond SITA's normal working hours (08h00 - 16h30) for the application must be indicated as there will be a standby allowance of R200 per day per resource that will be included in the SLA pricing. Should there be any actual work done after hours such as testing of the system due to enhancements, or any emergency technical issues that must be fixed after hours, it will incur overtime costs to the client. The actual amount as per the overtime hours worked, the client will be invoiced additionally for those hours	Yes / No
FASR004	Help Desk	Please indicate if you would require a Help Desk facility for call logging, or if you would use you own in-house Help Desk:	
FASR005	Ad-hoc or on the job training	Will the department use super users to conduct ad-hoc/on the job training to users/new staff or is it expected of the FAS Team to do so? The client will be billed for travel and S&T.	

11.3 Application Training

Application Training provides an end-to-end training service to both the client administrators and end-users of a system, as well as the training of trainers. The application training service offerings are listed within table

9. Indicate the training requirements in the Response column.

Table 27: Application Training Requirements

ATR No.	Requirement	Description	Response
TRR001	Course design specification	This document provides the specifications for the training material development and training delivery approach as per the training requirement. This is a standard document required to be compiled for any training request.	Yes
TRR002	Online help for front-end users	A "How To" guide on how to perform the required transactions on the front-end (citizen-facing) part of the application. It can be accessed from the application home/landing page. This is especially useful for e-Services applications.	Yes / No
	User guide for front-end users	A PDF version of the online help, which can be downloaded and printed if required. This is especially useful for e-Services applications and can also be used for training purposes.	Yes / No
TRR003	Online help for back-end users	A "How To" guide for Departmental officials on how to perform the required transactions on the back-end part of an application. It can be accessed from the application home/landing page.	Yes / No
	User guide for back-end users	A PDF version of the online help, which can be downloaded and printed if required. It can also be used for training purposes in conjunction with a facilitator guide (if required).	Yes / No
TRR004	Training manual	The manual consists of a course outline/overview and learning units with learning outcomes, usually according to the main menu of the application. It is a more formal manual than a user guide, but contains the same information in terms of the process steps of the functions. It is especially useful when a train-the-trainer approach is followed, used in conjunction with a facilitator guide (if required).	Yes / No
TRR005	Facilitator guide	The guide will be provided to the trainers when a train-the-trainer approach is followed, if required. It provides information and guidelines in terms of pre- and post-course preparation, as well as training delivery (learning outcomes, course programme, etc.). It can be used in conjunction with a training manual or user guide.	Yes / No
TRR006	Assessment guide	This document will be compiled if the users must be assessed at the end of the training. It includes the assessment approach, assessment guidelines, formative exercises and question paper for the summative assessment at the end of the training.	Yes / No
TRR007	Pilot training	A pilot training session is conducted prior to the training delivery to evaluate the training material and training methods. The feedback and recommendations from the role players will be discussed, consolidated and applied to the respective training documents. If "Yes", please indicate the following:	Yes / No
		Must the training be classroom-based? If "Yes", please specify the venue.	Yes / No
		Must the training be presented online? If "Yes", please specify the platform: a) MS Teams b) Jitsi c) Skype.	Yes / No Yes / No Yes / No

		Must it be a full simulation of the training?	Yes / No
		Must it be an abridged version of the training?	Yes / No
TRR008	Training of trainers	SITA will train trainers as identified by the client, who will in turn train the other end-users. If "Yes", please indicate the following:	Yes / No
		(a) Must the training be presented at a SITA venue? NOTE:	Yes / No
ATR No.	Requirement	Description	Response
		<ul style="list-style-type: none"> i. SITA does not have training venues in all provinces. ii. The maximum number of delegates per session will be determined by the social distancing protocol applicable at the time. iii. The use of personal protective equipment will be adhered to. 	
		(b) If "Yes", please indicate whether catering services are required at the SITA venue. This will be provided if possible, depending on the lockdown regulations at the time.	Yes / No
		(c) Must the training be presented at a client venue? If "Yes", please specify the location(s).	Yes / No
		(d) Must the training be presented online? A maximum of 15 delegates can be accommodated to keep the group manageable during training. If "Yes", please specify the platform: <ul style="list-style-type: none"> i. MS Teams ii. Jitsi iii. Skype. 	Yes / No Yes / No Yes / No
		(e) How many trainers must be trained?	
		(f) Must the trainers write an assessment?	Yes / No
		(g) Are training certificates required?	Yes / No
TRR009	Training of end-users	The end-users will be trained by SITA. If "Yes", please indicate the following:	Yes / No
		(a) Must the training be presented at the SITA Centurion training centre? NOTE: <ul style="list-style-type: none"> i. SITA does not have training venues in all the provinces. ii. The maximum number of delegates per session will be determined by the social distancing protocol applicable at the time. iii. The use of personal protective equipment will be adhered to. 	Yes / No
		(b) If "Yes", please indicate whether catering services are required at the SITA venue. This will be provided if possible, depending on the lockdown regulations at the time.	Yes / No
		(c) Must the training be presented at a client venue? If "Yes", please specify the location(s).	Yes / No

		(d) If the training venues are decentralised, please specify the number of end-users to be trained at each location.	
		(e) Must the training be presented online? A maximum of 15 delegates can be accommodated to keep the group manageable during training. If "Yes", please specify the platform: i. MS Teams ii. Jitsi	Yes / No Yes / No Yes / No Yes / No
		iii. Skype.	
		(f) How many end-users must be trained?	
		(g) Must the end-users write an assessment?	Yes / No
		(h) Are training certificates required for the end-users?	Yes / No
TRR010	Any additional training requirements or information		

12. Exclusions

The following will be excluded from the provisioning of goods and/or services regarding this request:

- a) Data migration.
- b) Existing Department hardware and/or software updates/upgrades.
- c) The Department end-user equipment procurement, upgrade or replacement.
- d) Bandwidth expansion or improvement and/or connectivity of end-users.
- e) End-user software i.e. browsers and other office applications.
- f) Any software licences which are optional or not specified.
- g) Any subscription services not specified.
- h) Mobile voice and data connectivity facilities.
- i) Additional network points for end users.

13. Risks / Dependencies

There are several foreseeable risks involved in the provisioning and/or operation of the required solution. Such perceived risks should be addressed during the analysis, selection and implementation of the required solution to ensure sovereignty of parliament and the South African citizens as a result.

The following risks have been identified at this early stage and does not serve as an exhaustive list of risks:

- a) Protection of information of client.
- b) Authentication and verification of Departmental users.
- c) Scalability of the solution to accommodate all required functionality that may be constrained by the hosting infrastructure, network capacity and the solution.
- d) Sufficient skilled resources availability to maintain, sustain and support both the solution and the meetings when in session.
- e) Availability of required functionality as per this URS.
